1897.

# REPORT.

DURING the quarter ending 31st March 1897, there were registered in Scotland 31,720 Births, 21,996 Deaths, and 7457 Marriages. Table III. shows the Birth-rate to be the same as the average for the quarter during the ten previous years, the Deaths to be slightly below it, and the Marriages considerably above.

TABLE I.—Births, Deaths, and Marriages in Scotland, its Groups of Districts and Divisions, during the Quarter ending 31st March 1897, with their Proportion to the Population, also the Illegitimate Births, and their Proportion to the Total Births.

## BIRTHS.

31,720 Births were registered in Scotland during the quarter, being at the annual rate of 305 for every ten thousand of estimated population, or 3.05 per cent.

In the Principal Town Districts the annual Birth-rate for every ten thousand persons was 323; in the Large Town Districts, 326; in the Small Town Districts, 305; in the Mainland-Rural Districts, 270; and in the Insular-Rural Districts, 213.

The annual Birth-rate for every ten thousand persons in Greenock, was 358; in Glasgow, 342; in Aberdeen, 323; in Leith, 317; in Paisley, 314; in Dundee, 290; in Perth, 279, and in Edinburgh, 271.

Of the 31,720 Births, 2354, or 7·4 per cent., were illegitimate. In the Insular-Rural Districts, 5·0 per cent. of the Births were illegitimate; in the Large Town Districts, 5·9; in the Principal Town Districts, 6·6; in the Small Town Districts, 7·4; and in the Mainland-Rural Districts, 10·5.

A comparative statement of the rate of illegitimacy in the Divisions and Counties of Scotland will be found in Tables I. and II. Table I. shows illegitimacy to have been highest in the North-Eastern and Southern Divisions; while from Table II. it may be gathered that in twelve of the Counties the rate of illegitimacy was over 10 per cent. The highest rate in any County occurred in Caithness, viz., 18·3 per cent.; and the lowest in Shetland, viz., 1·9 per cent.

Of the 31,720 Births, 16,318 were of males, and 15,402 of females, being in the proportion of 106 males to every 100 females. 10,609 Births were registered during January, being at the rate of 342 daily; 9,699 during February, or 347 daily; and 11,412 during March, or 368 daily.

## DEATHS.

The Deaths of 21,996 persons were registered in Scotland during the quarter, being at the annual rate of 211 for every ten thousand of the estimated population, or 2·11 per cent.

The number of Deaths registered in England and Wales during the quarter was 143,630, being at the annual rate of 188 for every ten thousand of estimated population.

The Death-rate in the Principal Town Districts was 238 for every ten thousand persons; in the Large Town Districts, 210; in the Small Town

Districts, 195; in the Mainland-Rural Districts, 182; and in the Insular-Rural Districts, 191.

In Perth, the Death-rate for every ten thousand persons was 282 ; in Glasgow, 267 ; in Greenock, 242 ; in Dundee, 228 ; in Edinburgh, 222 ; in Aberdeen, and in Paisley, 212 ; and in Leith, 199.

Of the 21,996 Deaths, 10,865 were of males, and 11,131 of females. 6953 Deaths were registered during January, or 224 daily ; 7364 during February, or 263 daily ; and 7679 during March, or 244 daily.

### MARRIAGES.

7457 Marriages were registered in Scotland during the quarter, being at the annual rate of 72 for every ten thousand of the estimated population, or 0·72 per cent.

In the Principal Town Districts, Marriages occurred at the annual rate of 87 for every ten thousand of the estimated population ; in the Large Town Districts, at the rate of 76 ; in the Small Town Districts, at the rate of 67 ; in the Mainland-Rural Districts, at the rate of 48 ; and in the Insular-Rural Districts, at the rate of 50.

Marriages occurred in Glasgow at the annual rate of 103 for every ten thousand of estimated population ; in Paisley, at the rate of 102 ; in Greenock, the rate was 95 ; in Aberdeen, 89 ; in Perth, 86 ; in Dundee, 77 ; in Leith, 75 ; and in Edinburgh, 69.

4085 Marriages were registered during January, or 132 daily ; 1501 during February, or 54 daily ; and 1871 during March, or 60 daily.

### INCREASE OF POPULATION AND EMIGRATION.

The number of Births for the quarter being 31,720, and of the Deaths 21,996 ; the natural increase of the population, not allowing for changes consequent on emigration or immigration, amounts to 9724. No reliable estimate of the number of immigrants can be formed, but in regard to emigrants it is found from the Returns furnished by the Board of Trade that the number of these for the quarter was 34,267, of whom 17,365 were English, 2341 Scottish, 3423 Irish, 10,065 Foreigners, and 1073 whose nationality was not distinguished, but of whom 76 may be assumed to be Scottish. If then 2341+76, the number of Scottish emigrants, be deducted from the number representing the excess of Births over Deaths, 7307 remains as the probable increase of the population for the quarter.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 31st March 1897.

## DISEASES IN THE ABOVE PRINCIPAL TOWNS.

About 36 per cent. of the population of Scotland, being resident in these towns, it may be assumed that diseases prevailing in them will be found in like proportion throughout the country.

The total deaths in these towns amounted to 2931 in January, 3165 in February, and 3194 in March; and of these 98 in January, 92 in February, and 136 in March were not specified or ill-defined.

Miasmatic Diseases caused 337 deaths in January, or 2·56 per thousand of estimated population; 383 in February, or 3·22 per thousand; and 414 in March, or 3·15 per thousand.

Measles caused 149 deaths in January, or 1·13 per thousand of estimated population; 132 in February, or 1·11; and 141 in March, or 1·07. Scarlet Fever caused 24 deaths in January, or 0·18 per thousand; 21 in February, or 0·18; and 23 in March, or 0·17. To Hooping-Cough were attributed 105 deaths in January, or 0·80 per thousand; 149 in February, or 1·25; and 154 in March, or 1·17. Diphtheria was the cause of 17 deaths in January, or 0·13 per thousand; 16 in February, or 0·13; and 20 in March, or 0·15. Fevers caused 25 deaths in January, or 0·19 per thousand of estimated population; 13 in February, or 0·11; and 27 in March, or 0·21.

Diarrhoea and Dysentery caused 26 deaths in January, or 0·20 per thousand; 44 in February, or 0·37; and 43 in March, or 0·33.

Venereal Diseases caused 11 deaths in January, 16 in February, and 12 in March.

From Intemperance there resulted 6 deaths in January, 6 in February, and 6 in March.

To Constitutional Diseases were ascribed 518 deaths in January, 529 in February, and 579 in March; and of these 105 in January, 109 in February, and 111 in March were from Cancer; and 276 or 2·10 per thousand of estimated population in January, 283 or 2·38 per thousand, in February, and 296 or 2·25 per thousand, in March were from Phthisis.

To Developmental Diseases were attributed 210 deaths in January, 215 in February, and 219 in March.

Diseases of the Nervous System caused 311 deaths in January, 382 in February, and 335 in March.

Diseases of the Respiratory System were the cause of 692 deaths in January, of 870 in February, and of 690 in March; and of these, 15 in January, 13 in February, and 9 in March, were from Croup; 334 in January, 440 in February, and 301 in March from Bronchitis; and 279 in January, 329 in February, and 309 in March, from Pneumonia.

Diseases of the Digestive System proved fatal to 165 persons in January, 170 in February, and 181 in March.

Diseases of the Urinary System caused 77 deaths in January, 72 deaths in February, and 64 deaths in March.

Parturition, or conditions connected therewith (including Puerperal Fever), caused 17 deaths in January, 14 in February, and 25 in March.

To Violent Causes were attributed 131 deaths in January, 96 in February, and 137 in March.

### WEATHER.

The following remarks on the weather of the quarter are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports :—

The weather of January was characterised by a rather high mean pressure, with an unusually low average monthly range; a low mean temperature with a lower mean daily range than has occurred since January 1874; a very low humidity; a comparatively small rainfall, falling 3 days fewer than the average; an unwonted excess of northerly and easterly winds, and a deficiency of south-westerly winds.

The weather of February was characterised by a mean pressure a little above the average, with a rather low monthly range; a mean temperature 1°·3 above the average, with a mean daily range rather under it; an average humidity; a rainfall one-fourth under the average, falling, however, on the average number of days; and a wind-force just under the average, with a slight excess of south-westerly and deficiency of north-westerly winds.

The weather of March was characterised by an unwontedly low mean barometric pressure, with a monthly range a little under the average; a mean temperature  $1^{\circ}5$  above the average, with a mean daily range  $1^{\circ}2$  under it; a mean humidity less than the average; a rainfall very much above the average, and falling on a larger number of days than during any previously recorded March; and a wind-force greatly above the average, with a three days' excess of south-easterly winds.

The mean height of the barometric column, reduced to sea-level and  $32^{\circ}$  Fahr., was 29.931 inches in January, 29.912 inches in February, and 29.474 inches in March. The mean temperature for the quarter was  $38^{\circ}0$ , being  $0^{\circ}1$  below the average mean temperature for the quarter during the last ten years. The mean temperature during January was  $34^{\circ}2$ , during February,  $39^{\circ}4$ , and during March,  $40^{\circ}4$ . The absolute highest temperature was  $51^{\circ}4$  in January,  $64^{\circ}2$  in February, and  $60^{\circ}5$  in March; the absolute lowest being  $8^{\circ}0$  in January,  $-7^{\circ}0$  in February, and  $15^{\circ}4$  in March. Rain fell on 14 days in January, on 15 in February, and on 24 in March; the mean depth being 1.75 inches in January, 2.84 inches in February, and 4.89 inches in March. Winds with an easterly point blew on 11 days in January, on 7 days in February, and on 9 days in March. Winds with a westerly point blew on 10 days in January, on 16 days in February, and on 14 days in March. Northerly winds blew on 13 days in January, on 5 days in February, and on 7 days in March. Southerly winds blew on 8 days in January, on 11 days in February, and on 13 days in March.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING  
TABLES BY AN ASTERISK (\*).

No.	Districts.	Component Parts (Parishes).
13	Birsay .. .. .	Part of Harray and Birsay.
14	Deerness .. .. .	Part of St Andrews.
18	Harray .. .. .	Part of Harray and Birsay.
22	North Ronaldshay .. .. .	Part of Cross and Burness.
26	Sanday .. .. .	Lady, and part of Cross and Burness.
37b	Keiss .. .. .	Parts of Cannsbay and Wick.
59b	Applecross .. .. .	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
86b	Carnoch .. .. .	Parts of Contin and Urray.
87	Carloway .. .. .	Parts of Barvas and Uig.
92b	Lochs .. .. .	Lochs and part of Uig.
112	Cannich .. .. .	Parts of Kilmoreack, and Kiltarlity & Convinth.
135	Kilmuir .. .. .	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
152	Elgin .. .. .	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
155b	Enzie .. .. .	Parts of Belle and Rathven.
167	Glenrines .. .. .	Parts of Aberlour and Mortlach.
168	Seafeld .. .. .	Parts of Cullen and Rathven.
171b	Aberdeen .. .. .	Part of City Parish of Aberdeen and Old Machar.
210b	Cruden, Ellon, Longside, and Old Deer.	Parts of Cruden, Ellon, Longside, and Old Deer.
217	Kinninmonth .. .. .	Parts of Crimond, Longside, Lomnay, Old Deer, and Strichen.
222b	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick, Tullich, and Glengairn.
227b	Milbrey .. .. .	Parts of Fyvie and Monquhitter.
231	New Pitsligo .. .. .	Parts of Aberdour, New Deer, Strichen, and Tyrie.
	Peterculter .. .. .	(1) Parts of City Parish of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch .. .. .	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells .. .. .	Parts of Auchterless and Forgue.
266	Nigg .. .. .	Part of City Parish of Aberdeen and Nigg.
282	Dundee .. .. .	Dundee, and part of Liff, Benzie, and Invergowrie.
294b	Kilry .. .. .	Parts of Glenelg and Lintathen.
324	Aberfeldy .. .. .	Parts of Dull, Kenmore, and Logierait.
326b	Ardoch .. .. .	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven .. .. .	Parts of Auchtergaven and Logiealmond.
331	Balquhiddier .. .. .	Balquhiddier, and part of Comrie.
344	Dowally .. .. .	Part of Dunkeld & Dowally.
349	Dunkeld .. .. .	Part of Dunkeld & Dowally.
355b	Foss .. .. .	Parts of Blair Athol and Dull.
361	Killin .. .. .	Parts of Kenmore and Killin.
375	Logiealmond .. .. .	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle .. .. .	Meigle, and part of Coupar-Angus.
386b	Persie .. .. .	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth .. .. .	Perth, and part of Kinnoull.
393b	Stanley .. .. .	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan .. .. .	Part of Killin.
394c	Tenantry .. .. .	Parts of Blair Athol and Moultn.
402	Anstruther-Easter .. .. .	Anstruther-Easter, and part of Killynny.
417	Crail .. .. .	Part of Crail and May Island.
423	Dunbog .. .. .	Dunbog, and part of Flisk.
425	Dunino .. .. .	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall .. .. .	Kirkcaldy, Abbotshall, and part of Kinghorn.
481b	Grangemouth .. .. .	Parts of Bothkennar, Falkirk, and Polmont.
483	St Ninians .. .. .	St Ninians, and part of Stirling.
496	Dumbarton .. .. .	Dumbarton, and part of Cardross.
505	Ardnamurchan .. .. .	(1) Parts of Ardnamurchan, and Arisaig and Moidart; (2) Remainder of Arisaig and Moidart.
506	Ballachulish, etc. .. .. .	Parts of Kilmallie, and Ardgour.
509	Cumlodden and Minard .. .. .	Parts of Glassary, and Glenaray.
513	Inveraray .. .. .	Inveraray, and part of Glenaray.
515	Kilbrandon and Kilchattan .. .. .	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc. .. .. .	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishall; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie .. .. .	Parts of Kilmallie, and Ardgour.
525	Lismore .. .. .	Lismore and Appin, and part of Kilmallie.
526	Lochgilphead .. .. .	Parts of Glassary and South Knapdale.
529	Muckairn .. .. .	Parts of Ardochattan and Muckairn, and Glenorchy and Inishall.
535	Tarbert .. .. .	Parts of Kilmallie, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow) .. .. .	Part of Kilarrow, and Kilmeny.
543	Kilmeny .. .. .	Part of Kilarrow and Kilmeny.
545	Kilnochspelve .. .. .	Part of Pennygown and Torosay.
517	Portmahaven .. .. .	Part of Kilchoman.
548	Salen .. .. .	Parts of Kilninan and Kilmore, and Pennygown and Torosay.
549	Tobermory .. .. .	Part of Kilninan and Kilmore.
550	Torosay .. .. .	Part of Pennygown and Torosay.
556	Lochranza .. .. .	Parts of Kilbride and Kilmore.
559b	Bridge of Weir .. .. .	Parts of Houston and Killelen, and Kilbarchan.
572	Neilston .. .. .	(1) Part of Neilston; (2) Remainder of Neilston and part of Abbey.
576	Ardrossan .. .. .	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
540	Crosshill .. .. .	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine .. .. .	Irvine, and part of Dundonald.
610b	Patna .. .. .	Parts of Dalmenington, Dalrymple, Kirkmichael, and Stratton.
626b	Calderhead .. .. .	Parts of Cambusnethan and Shotts.
644	Glasgow .. .. .	City of Glasgow, Gorbals, and parts of Barony, and Govan.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
693	Liberton .. ..	Parts of Liberton and Inveresk.
698b	Stobhill .. ..	Parts of Borthwick, Cockpen, and Newbattle.
774a	Caddonfoot .. ..	Parts of Galashiels, Innerleithen, Selkirk, Stow, and Yarrow.
787b	Edgerston .. ..	Parts of Jedburgh, and Southdean.
813b	Brydekirk .. ..	Parts of Annan, Cummertrees, and Hoddum.
830	Holywood .. ..	Holywood, and part of Terregles.
853b	Wanlockhead .. ..	Part of Sanquhar.
857b	Bargrennan .. ..	Parts of Minnigaff (Kirkendbright) and Penninghame (Wigtown).
862	Corsockbridge .. ..	Parts of Balmacellian, Kirkpatrick-Durham, and Parton.
864	Dalbeattie ... ..	Part of Urr.
899	Stranraer .. ..	Stranraer, and parts of Inch, and Leswalt.

LIST of REGISTRATION DISTRICTS which include BURGHS, or TOWNS of 2000 Inhabitants and upwards, or parts thereof, bearing a different name from the District in which they are situated.

No.	Registration Districts.	Burghs.	Towns.

# METEOROLOGICAL REPORT

FOR THE MONTHS OF

JANUARY, FEBRUARY, MARCH.

1897.

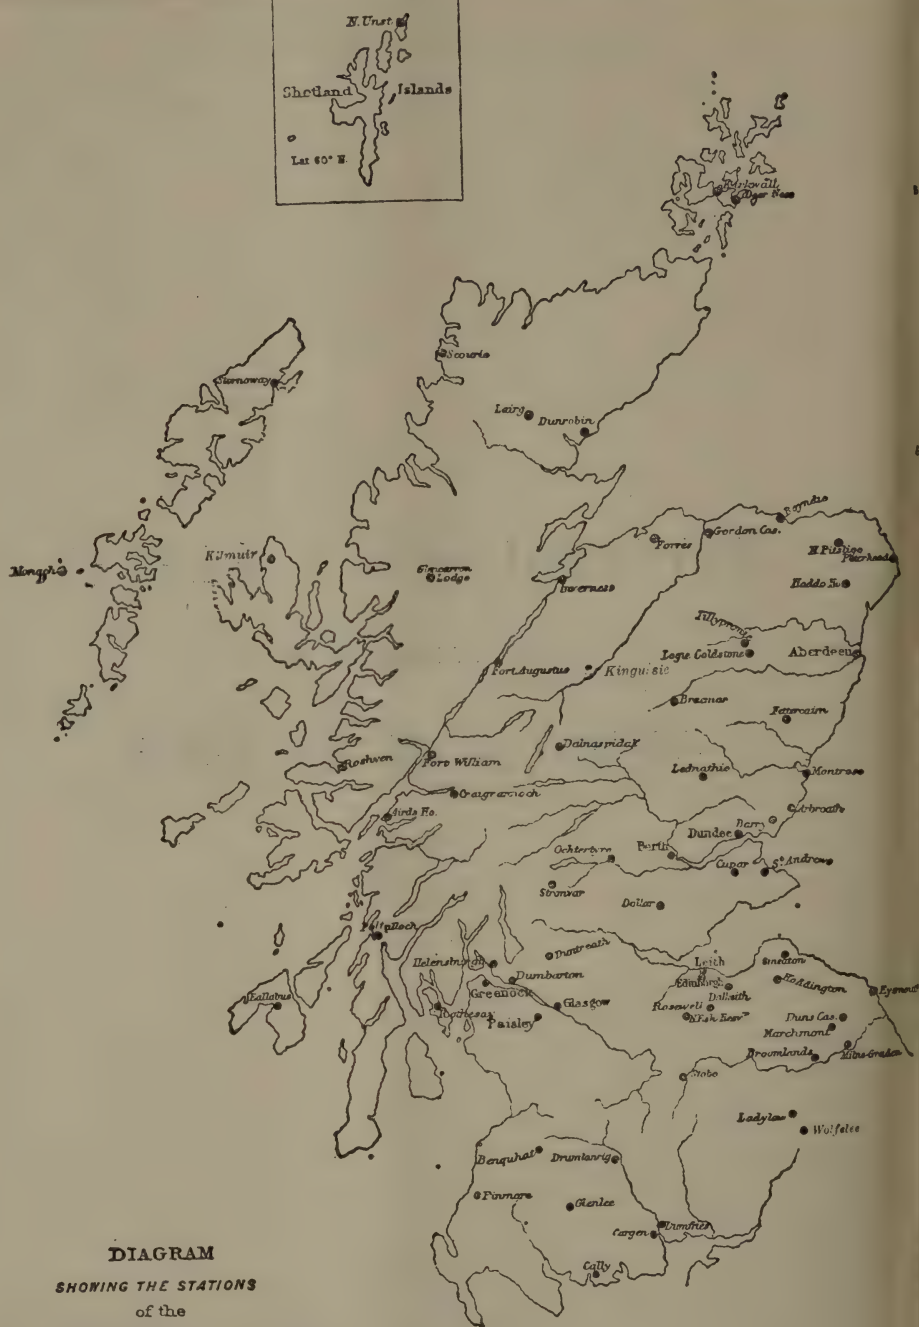

DIAGRAM  
SHOWING THE STATIONS  
of the  
SCOTTISH METEOROLOGICAL SOCIETY.  
Reported to the Registrar General of Scotland.

NOTES ON THE NUMERICAL RETURNS OF SCOTTISH METEOROLOGY  
FOR THE QUARTER ENDING 31st MARCH 1897.

By Dr BUCHAN, under the Direction of the Council of the Scottish Meteorological Society.

THESE returns are founded on the observations made, morning and evening, at 69 of the Stations of the Scottish Meteorological Society, and have been prepared from the Observers' separate schedules.

From the individual results for each station, the following collective results have been obtained, assuming them to have been equally well observed, and to represent the whole country :—

COLLECTED RETURNS FOR ALL THE ACCEPTED STATIONS OF THE SCOTTISH METEOROLOGICAL SOCIETY, HAVING A MEAN LATITUDE = 56° 33' N.; MEAN LONGITUDE = 3° 46' W.; AND MEAN ELEVATION = 279 Feet.

And when these results are compared with the averages of 1856-95, during the same months, they show the following characteristics and differences.

JANUARY 1897—

Mean Barometric Pressure, 29·931 inches ; greater than the average of 1856-95 by 0·151 inch.

Monthly Range, 1·160 inch ; less by 0·479 inch.

Mean Temperature, 34·2 ; less by 2°·9.

Mean Daily Range, 9°·2 ; being the average.

Mean of Black Bulb in Sun, 48°·6 ; less by 0°·3.

Do. at Night, 26°·6 ; less by 1°·7.

Mean Humidity, 84 ; less by 3·7.

Rain, Number of Days, 14 ; less by 3 days.

Rain, Depth in Inches, 1·75 ; less by 2·15 inches.

Wind, Pressure on Square Foot, 2·05 lbs. ; less by 0·10 lb.

Wind, Direction of, E. to W. as 8 to 7, and N. to S. as 9 to 5 ; in place of E. to W. as 5 to 11, and N. to S. as 5 to 9.

Hours of Sunshine, 52 ; less by 9 hours.

Mean Amount of Cloud, 6·4 ; less by 0·3.

FEBRUARY 1897—

Mean Barometric Pressure, 29·912 inches ; greater than the average of 1856-95 by 0·059 inch.

Monthly Range, 1·127 inch ; less by 0·357 inch.

Mean Temperature, 39°·4 ; greater by 1°·0.

Mean Daily Range,  $10^{\circ}1$  ; being the average.

Mean of Black Bulb in Sun,  $61^{\circ}3$  ; greater by  $4^{\circ}7$ .

Do. at Night,  $30^{\circ}6$  ; greater by  $1^{\circ}8$ .

Mean Humidity, 86 ; less by 1.0.

Rain, Number of Days, 15 ; being the average.

Rain, Depth in Inches, 2.84 ; less by 0.22 inch.

Wind, Pressure on Square Foot, 2.23 lbs. ; greater by 0.13 lb.

Wind, Direction of, E. to W. as 5 to 12 ; and N. to S. as 3 to 7 ; in place of E. to W. as 5 to 10, and N. to S. as 4 to 7.

Hours of Sunshine, 56 ; less by 29 hours.

Mean Amount of Cloud, 6.5 ; being the average.

#### MARCH 1897—

Mean Barometric Pressure, 29.474 inches ; less than the average of 1856–95 by 0.352 inch.

Monthly Range, 1.333 inch ; less by 0.103 inch.

Mean Temperature,  $40^{\circ}4$  ; greater by  $1^{\circ}0$ .

Mean Daily Range,  $10^{\circ}4$  ; less by  $1^{\circ}6$ .

Mean of Black Bulb in Sun,  $70^{\circ}0$  ; greater by  $5^{\circ}1$ .

Do. at Night,  $31^{\circ}6$  ; greater by  $2^{\circ}3$ .

Mean Humidity, 85 ; being the average.

Rain, Number of Days, 24 ; greater by 9 days.

Rain, Depth in Inches, 4.89 ; greater by 2.09 inches.

Wind, Pressure on Square Foot, 3.25 lbs. ; greater by  $1^{\circ}12$  lb.

Wind, Direction of, E. to W. as 6 to 10 ; and N. to S. as 5 to 9 ; in place of E. to W. as 6 to 10 ; and N. to S. as 6 to 6.

Hours of Sunshine, 72 ; less by 51 hours.

Mean Amount of Cloud, 7.0 ; greater by 0.66.

The weather of JANUARY 1897 was characterised by a rather high barometric pressure, with a very low monthly range, being indeed the third lowest range for the month during the past forty-one years ; a very low mean temperature, with the average mean daily range ; a mean humidity, absolutely the lowest from 1856 to 1896 ; with a mean rainfall lower than any previously recorded January, except in 1881, when the mean rainfall was only 1.30 inch, falling only on fourteen days, which is three days fewer than the average ; and an almost unprecedented excess of E., N.E., N., and N.W. winds, which prevailed eight days more than the average ; being in this respect only exceeded by the Januaries of 1867 and 1895.

The mean barometric pressure was 29.931 inches, or 0.151 inch in excess of the average. This excess was most unequally distributed, being very greatly more in the north than in the south, and in the west than in the east. Thus at North Unst it was 0.239 inch, but at Dumfries only 0.086 inch ; and 0.242 inch at Stornoway, but only 0.150 inch at Aberdeen. Thus barometric gradients were formed for northerly and easterly winds, bearing with them the low temperatures and humidities, which were the outstanding features of the weather of the month.

The mean temperature was  $34^{\circ}2$ , or  $2^{\circ}9$  under the average, the deficiency being equally partitioned between the days and the nights. Except in inland situations, where the temperature was lower than elsewhere, the deficiency was pretty equally distributed over the whole country. The absolutely highest temperature was  $51^{\circ}4$  at Fort William on the 2nd ; and the lowest  $8^{\circ}0$  at Drumlanrig Castle on the 23rd. The coldest period was from the 14th to the 23rd.

The mean rainfall was  $1^{\circ}75$  inch, or 55 per cent. under the average, and, as stated above, of the last forty-two Januaries only that of 1881 shows a smaller rainfall. Its distribution over the country was singularly unequal, being above the average at Start Point in Orkney, at the coast stations of Caithness, and generally in the counties of Aberdeen and Banff. At Haddo House and Logie Coldstone, the excess was 70 per cent., and at Tillypronie 112 per cent. above the average ; the precipitation in these districts being mostly in the form of snow. Everywhere else the amount was under the average, the deficiency in almost every case being very large, the general rainfall being only about one-fourth part of the average of the month.

Thunder and Lightning were wanting in an unusual degree. On the 1st and 2nd Auroras were noted at many places to the north of a line drawn from Berwick to the north of the Hebrides. Storms of wind were frequent in the west from the 1st to the 3rd ; to the south of the Grampians from the 6th to the 9th, and on the 21st and 22nd ; and generally from the 24th to the 27th. For all the stations the mean force of the wind was nearly the average.

#### FEBRUARY 1897—

Hence the weather of FEBRUARY 1897 was characterised by a mean barometric pressure somewhat above the average, with a monthly range much under it ; a mean temperature, a degree above the average, with an average mean daily range ; a mean humidity slightly under the average ; a mean rainfall a little under the average, and

falling on the average number of days ; and a wind force, a little over the average, with a four days' excess of westerly and north-westerly winds.

The mean barometric pressure was 29·912 inches, or 0·059 inch above the average. On the Solway, the excess was 0·076 inch, while at North Unst there was a deficiency of 0·051 inch ; and in the east at Aberdeen the excess was 0·060 inch, whereas in the west at Stornoway, the excess was only 0·027 inch. From this distribution of the pressure there resulted the greater excess of westerly winds, their greater force, and the higher temperature which prevailed.

The mean temperature was 39°·4, or 1°·0 above the average, the excess being equally partitioned between the days and the nights. The temperature was, geographically considered, very unequally distributed over the country. Thus, at the head of the Moray Firth, in Orkney, and Shetland, it was a little under the average, but everywhere else it was above it, the greatest excess being in the south-west of the country, where it amounted to from 2°·5 to 3°·0. From the 1st to the 4th, there was a remarkably low temperature over a restricted area, extending from Perth to Lairg, and from Fort William to Aberdeen. For these four days the mean temperature at Lairg was 18°·6 and at Nairn 20°·3, being respectively 16°·1 and 17°·8 under their averages. On the other hand, at Leith the mean of these days was 35°·1, or only 4°·5 under the average. At this time the absolutely lowest temperature, - 7°·0, or 7° below zero, occurred at Braemar on the 4th. On the other hand, there were remarkably high temperatures over the north-east of Scotland, culminating on the 22nd when at Aberdeen temperature rose to 64°·2, being absolutely the highest for the month at any station. This restricted area of high temperature extended from Forres to Perth.

The mean rainfall was 2·84 inches or 7 per cent. under the average. Its distribution over the country was singularly irregular. Thus, over a rather broadish belt extending from Wolfelee in the Cheviots, through Stobo, Stronvar, Dalnaspidal, and Fort Augustus to the Narrows of Skye, the rainfall was above the average, the excess being from a tenth to a fourth more than the average. In every other district it fell below the average. The greatest deficiency occurred at the stations on the eastern slopes of the country where the amount was generally less than half the average ; but at western stations it amounted to three-fourths of it.

Storms occurred on the 9th and 10th to the north of a line drawn from the Pentland Firth to Skerryvore ; on the 16th, 18th, 20th, and 21st at western stations generally ; and from the 23rd to the end of the month, this prolonged stormy weather being also experienced in all parts of the country.

#### MARCH 1897—

Hence the weather of MARCH 1897 was characterised by a most unusually low pressure, with a monthly range somewhat under the average ; a mean temperature one degree above the average, with a mean daily range a degree and a half under it ; a mean humidity, the average ; a mean rainfall, only twice exceeded in amount since 1856 by the rainfall of March 1861 and 1876, falling on the unprecedented number of twenty-four days ; a high wind force only exceeded in March 1882 and 1891, with three days' excess of southerly wind ; a great excess of cloud ; and only 72 hours of sunshine, which is absolutely the smallest amount of sunshine hitherto recorded for any March.

The mean barometric pressure was 29·474 inches, showing a deficiency from the average 0·352 inch. Hitherto a lower mean barometer has occurred only once, viz., in March 1876, when it was 29·394 inches. The deficiency was much greater in the southern and eastern districts than in the northern and western ; and this mode of distribution of the barometric pressure resulted in the three days' excess of southerly winds with the higher temperature which accompanied them.

The mean temperature was 40°·4, or 1°·0 above the average ; the excess of the temperature of the days being 0°·2, but of the nights 1°·8, these results being occasioned by the small sunshine and greater cloudiness of the month. Its distribution over the country was peculiar, being only the average or slightly under it in the north of the Lewis, and the west of Orkney and Shetland, whereas in Lower Clydesdale, it was 2°·0. The absolutely highest temperature was 60°·5 at Aberdeen on the 24th ; and the lowest 15°·4 at Braemar on the 31st.

The mean rainfall was 4·89 inches, or 75 per cent. above the average. This is the largest rainfall yet recorded in March, except in March 1861 and again in 1876 when it was 5·10 inches. Its distribution in different districts was most unequal, the most striking contrast being shown in the north-east of Inverness-shire, inclusive of the greater part of Strathspey, where it was 10 per cent. under the average ; and the Grampians immediately to the south-east, particularly their southern slopes. Thus at Lednathie, it was 208 per cent. above the average, 126 at Braemar, 118 at Dalnaspidal, and 109 at Ochertyre. These large rainfalls were chiefly occasioned by the heavy rains brought by the south-easterly winds, which, after crossing the Grampians and descending on Strathspey, were practically rainless. Heavy rains also accompanied the south-westerly winds during the week ending with the 28th, and thus near the Solway and in several localities in the extreme west more than double the average rainfall of March was collected. A peculiarity of this rainfall was the singular absence of large daily amounts exceeding an inch, but as stated it fell on an unprecedentedly large number of days.

## REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

### INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

*The Figures refer to the Numbers of the Districts in the preceding Tables.*

#### I. NORTHERN DIVISION.

##### 2. ORKNEY.

24. ROUSAY AND EGILSHAY.—Hooping-Cough prevalent in the Island of Rousay.

##### 3. CAITHNESS.

34. BOWER.—Weather wet and stormy, March being particularly wet. The four deaths were of infants between the ages of 15 hours and 2 years. A mild type of Cholera prevalent. Marriages almost invariably performed outside the parish.

36. DUNNET.—One of the three persons whose deaths were registered was aged 92 years.

41. THURSO.—Of the twenty-six deaths, seven were of persons aged respectively 78, 80, 80, 80, 82, 82, and 91 years.

45. WICK.—The high death-rate for March was caused by an epidemic of Measles.

##### 4. SUTHERLAND.

46 (1). BONAR.—Owing to the prevalence of Influenza, the deaths are greatly above the average.

71a. KINCARDINE.—Death-rate low, and all the deaths of aged people, yet there has not been so much sickness for the last 20 years. Influenza, Mumps, and Hooping-Cough very prevalent, and scarcely a house without some inmate laid up with one or other of these diseases.

75 (1). LOCHBROOM.—Influenza has increased the death-rate considerably, especially among females, the rate for these being more than four times that for males. Number of Marriages increasing.

75 (2). COIGACH.—Deaths above the average, two of the five (those of father and son) having been caused by Lightning.

##### *Insular.*

86b. CARLOWAY.—Owing to the prevalence of Measles and Influenza, and the inclement nature of the weather, the deaths during March are above the average.

88. STORNOWAY.—The deaths number 97 against 31 for the corresponding quarter of last year. Of this increase 52 occurred in March, mainly in consequence of Influenza among aged people. An epidemic of Measles at present in the District, and three deaths therefrom.

89. UIG.—Influenza very prevalent during February and March, and resulted in the death of one child. Of the eleven deaths registered six were of persons aged respectively 83, 84, 86, 88, 88, and 89 years.

#### II. NORTH-WESTERN DIVISION.

##### 5. ROSS AND CROMARTY.

##### *Mainland.*

69. KILMUIR-EASTER.—Hooping-Cough prevalent, and the mortality thereby increased.

##### 6. INVERNESS.

##### *Mainland.*

92b. CANNICH.—This district has been certified by eminent medical authorities to be an ideal

early resort for those suffering from Bronchial Affections or Mental Overstrain.

96a. DORES.—Births above and Deaths below the average. Hooping-Cough prevalent, but only fatal in one case.

104. LAGGAN.—The number of deaths is abnormally large. One was of a man who had reached the age of 88 years.

*Insular.*

111 (1). NORTH HARRIS.—Several cases of Hooping-Cough occurred, and the deaths of four children were stated to have been from that cause.

111 (2). SOUTH HARRIS.—Hooping-Cough prevalent.

119. STRATH.—Deaths above the average, two being from Hooping-Cough. Measles of a severe type prevalent in one part of the district. German Measles and Influenza also very prevalent.

### III. NORTH-EASTERN DIVISION.

#### 8. ELGIN (or MORAY).

138. DYKE.—Deaths above the average. Four were of infants, and eight of the remaining nine of persons over 70 years of age.

#### 9. BANFF.

146. ALVAH.—Death-rate below the average. Of the eight registered the average age of five amounted to over 83 years.

153 (1). FORDYCE.—Typhoid Fever was very prevalent in the fishing village of Sandend, and was the cause of two deaths.

#### 10. ABERDEEN.

171b. ARDALLIE.—In consequence of the severity of the weather during February, the mortality for that month is high. Of the six deaths registered one was of a man 83 years of age, and two of women aged respectively 99 and 82 years.

173. AUCHTERLESS.—Of the six deaths registered, four were of persons aged respectively 78, 78, 83, and 93 years.

174. BELHELVIE.—Of the four deaths registered, two were of persons aged respectively 86 and 87 years.

227b. NEW PITSLIGO.—Of the nine deaths registered, four were of persons aged respectively 79, 81, 84, and 85 years. A female aged 55 years, while suffering from temporary Mental Aberration following upon Influenza, committed suicide by Drowning.

#### 11. KINCARDINE.

259. FORDOUN.—The two deaths registered in February were of males, aged respectively 80 and 82 years.

263. LAURENCEKIRK.—Of the ten deaths, one was of a person, aged 95 years, and the average age of other eight amounted to 76 years.

### IV. EAST-MIDLAND DIVISION.

#### 12. FORFAR.

289. GLAMIS.—The average age of the five persons whose deaths are recorded is 76 years,—the oldest being aged 82, and the youngest 60 years.

#### 13. PERTH.

325. ABERFOYLE.—Of the two deaths recorded during March, one was of a man who was choked while taking food, and the other of a child drowned in a burn near its home.

326. ABERNETHY.—Of the eight deaths registered, five were of infants, aged from 1 day to 3½ years. The body of a person, 24 years of age, was brought to land in a fishing-net on the Tay, and a child died from Burning.

330. AUCHTERGAVERN.—A few cases of Influenza, but the number of deaths is below the average.

359. INCHTURE.—Hooping-Cough prevalent, but none of the cases fatal. The school was closed for three weeks.

379. MEIGLE.—The four persons who died were aged respectively 76, 78, 79, and 82 years.

385. MUCKART.—The two persons whose deaths were recorded were aged respectively 68 and 75 years.

387. PERTH.—The mortality for the quarter is very high, more especially during February and March. As compared with the corresponding quarter of last year, 65 more deaths have been recorded. A considerable mortality occurred among children from Hooping-Cough. The mortality among the aged was heavy, due probably to weather influences.

389. RATTRAY.—Deaths much above the average, more than half being of persons whose ages ranged from 60 to 87 years.

392. ST MADDOES.—Scarlet Fever prevalent in the beginning of January. Measles broke out about the middle of March, and is still prevalent.

#### 14. FIFE.

420. CUPAR.—Of the thirty-five deaths registered, nine occurred in the Fife and Kinross Asylum.

434. KENNOWAY.—Death-rate extraordinarily heavy. Of the fifteen deaths recorded seven were of persons whose respective ages ranged from 68 to 85 years. The stormy and unsettled state of the weather since the advent of the year may have been the cause of the high rate of mortality.

439. KINGHORN.—Of the twenty-six deaths recorded, seven were caused by Hooping-Cough, which was prevalent in February and March. Seven deaths (mostly of very old persons) occurred in the Kinghorn Combination Poor-house.

458b. TULLIALLAN.—Measles prevalent, and caused three of the twelve deaths.

#### 15. KINROSS.

463. ORWELL.—Of the nineteen deaths, eight were of infants under a year old. One male and one female were aged respectively 81 and 96 years.

## V. WEST-MIDLAND DIVISION.

## 17. STIRLING.

479. FALKIRK.—Owing to the inclemency of the weather the number of deaths in March was quite abnormal.

484. KIPPEN.—Death-rate rather higher than usual. Most of the deaths were of old people, but three were of infants about a month old. An epidemic of Measles occurred in the Buckleyvie district, the school being closed for six weeks. None of the cases terminated fatally.

## 18. DUMBARTON.

500. NEW or EAST KILPATRICK.—Two deaths from Drowning, and one from suicide by Hanging, have been registered.

503. ROW.—Weather during January was exceptionally cold. Of the twenty-three deaths registered during that month eight were of persons aged 70 years and upwards, and eight of children aged from 1 day to 15 months.

## 19. ARGYLL.

*Mainland.*

513. INVERARAY.—Number of deaths exceptionally large, and chiefly of old people, two of the twelve being of persons over 90 years of age.

525 (2). APPIN.—Measles epidemic. Over 120 cases were reported, but only one proved fatal.

526. LOCHGILPHEAD.—Influenza made its appearance in February, and up to the end of the quarter was the cause of eight deaths. The epidemic is on the wane, but Measles is in the neighbourhood.

530. NORTH KNAPDALE.—Measles very prevalent, but none of the cases fatal.

*Insular.*

540. KILCHOMAN.—An epidemic of Measles in the western part of the parish, but of a mild type.

## 20. BUTE.

554 (2). SHISKINE.—The respective ages of the five persons whose deaths were recorded, were 69, 81, 85, 89, and 97 years.

## VI. SOUTH-WESTERN DIVISION.

## 21. RENFREW.

559. BRIDGE OF WEIR.—Measles and Hooping-Cough prevalent.

566. INCHINNAN.—An outbreak of Measles occurred in February, but none of the cases proved fatal. The public school was closed.

568 (2). LINWOOD.—Of the thirteen deaths registered, three resulted from Drowning.

## 22. AYR.

607. MUIRKIRK.—Of the twenty-six deaths

registered, four were of persons aged respectively 71, 72, 80, and 86 years.

608. NEW CUMNOCK.—Owing to the severity of the weather the number of deaths is exceptionally high, being thirty-seven against twelve for the same quarter last year. The deaths were chiefly amongst old people and young children; four being of persons between 70 and 80 years of age, three between 80 and 90, and one aged 91 years; while twelve were of children under 1 year.

616. STEWARTON.—Death-rate high. Of the twenty-four deaths recorded, four were of persons upwards of 80 years of age.

617. STRAITON.—Deaths much above the average. Of the seven registered, one was caused by Typhoid Fever.

## 23. LANARK.

626a (2). EASTERN DISTRICT OF CADDER.—Three deaths from Measles, which is at present epidemic in the district. In general, however, the cases are of a mild type.

629. CARLUKE.—Influenza of a mild type very prevalent. One death from that cause.

655 (1). MIDDLE DISTRICT OF SHOTTS.—The County Asylum is in this district, and accounts for the large proportion of deaths to births.

659. WANDELL AND LAMINGTON.—The only death registered was that of a woman in her 91st year.

## VII. SOUTH-EASTERN DIVISION.

## 24. LINLITHGOW.

665 (1). DALMENY.—Births very much above, and deaths very much below the average. Influenza prevalent, especially among children.

667. KIRKLISTON.—A good many cases of Measles occurred in the portion of the parish which is situated in the County of Edinburgh, and two of the deaths were from that cause. Five deaths resulted from Pneumonia.

## 25. EDINBURGH.

681. CRICHTON.—Births and Marriages much under, and Deaths far above the average. The cold winds in March told very severely on the aged.

686. FALA AND SOUTRA.—Influenza prevalent, but none of the cases fatal.

689. INVERESK.—During the last half of the quarter a severe epidemic of Measles prevailed in the Burghal part of the parish. The schools were closed in consequence.

## 26. HADDINGTON.

714. OLDHAMSTOCKS.—Of the three deaths registered, two resulted from accidents.

717. PRESTONKIRK.—Four of the eleven deaths registered occurred in the Combination Poor-house.

27. BERWICK.

730. CHIRNSIDE.—Deaths above the average. Diphtheria prevalent, and two of the cases fatal.

732 (2). GRANTS HOUSE.—Of the four deaths registered, three were from old age.

734. CRANSHAW.—Weather exceedingly unsettled, and Influenza very prevalent.

736. EARLSTON.—Deaths above the average, the number being ten as compared with four for the corresponding quarter of last year.

737. ECCLES.—A mild form of Scarlet Fever prevalent during February and March, on account of which the school had to be closed.

749. LEGERWOOD.—Bronchitis very prevalent. Of the three deaths two were from that cause.

28. PEEBLES.

762 (1). INNERLEITHEN.—Deaths double the ordinary rate on account of a severe epidemic of Measles, which has been the primary or secondary cause of eleven deaths out of the seventeen recorded. One death resulted from Burning.

762 (2). WALKERBURN.—An epidemic of Measles occurred in January, 50 per cent. of the school children being affected. Three of the cases proved fatal.

772. TWEEDSMUIR.—Deaths much above the average, probably, in consequence of the cold, wet, boisterous weather experienced in March.

29. SELKIRK.

778. SELKIRK.—Of the thirty-seven deaths,

eight were of persons aged 72 years and upwards, and eight of children under one year.

VIII. SOUTHERN DIVISION.

30. ROXBURGH.

798. MAXTON.—The two deaths were of females aged 77 and 81 years respectively.

805. SMILHOLM.—One death from Scarlet Fever.

807. SPROUSTON.—Scarlet Fever, of a mild type, prevalent in a part of the parish, and one of the schools closed.

31. DUMFRIES.

837 (2). SOUTHERN DISTRICT OF KIRKPATRICK-FLEMING.—The population of the district has greatly increased lately, owing to the opening up of Freestone quarries at Cove and Woodhouse.

32. KIRKCUDBRIGHT

865. DALRY.—Of the five persons whose deaths were registered, one was 64, three averaged 82, and one was 96 years of age.

33. WIGTOWN.

897. SORBIE.—Of the eleven deaths, two were caused by Influenza, which was prevalent during March.

# INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.\**

		Broughton, . . . . . 758	Cawdor, . . . . . 122	Criech (Suth.), . . . . . 46

\* The actual number of Districts is 1064—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.

# QUARTERLY RETURN

OF THE

## BIRTHS, DEATHS, AND MARRIAGES

REGISTERED IN THE

DIVISIONS, COUNTIES, AND DISTRICTS

OF

### SCOTLAND.

---

**QUARTER ENDING 30th JUNE 1897.**

---

PUBLISHED BY AUTHORITY OF THE REGISTRAR-GENERAL.

**CLXX.**

EDINBURGH:

PRINTED FOR HER MAJESTY'S STATIONERY OFFICE,

By NEILL & CO., Old Fishmarket Close,

And Sold by

JOHN MENZIES & Co., 12 HANOVER STREET, EDINBURGH; and

90 WEST NILE STREET, GLASGOW.

---

1897.

# REPORT.

DURING the quarter ending 30th June 1897, there were registered in Scotland 33,645 Births, 20,127 Deaths, and 8033 Marriages. On reference to Table III, it will be seen that the Births are below, and the Deaths and Marriages above the average for the corresponding quarter of the last ten years.

TABLE I.—Births, Deaths, and Marriages in Scotland, its Groups of Districts and Divisions, during the Quarter ending 30th June 1897, with their Proportion to the Population, also the Illegitimate Births, and their Proportion to the Total Births.

	POPULATION.		TOTAL BIRTHS.			ILLEGITIMATE BIRTHS.			DEATHS.			MARRIAGES.

## BIRTHS.

33,645 Births were registered in Scotland during the quarter, being at the annual rate of 320 for every ten thousand of estimated population, or 3·20 per cent.

The Birth-rate for every ten thousand persons in the Principal Town Districts was 334; in the Large Town Districts, 348; in the Small Town Districts, 325; in the Mainland-Rural Districts, 289; and in the Insular-Rural Districts, 190.

The Birth-rate for every ten thousand persons in Aberdeen was 354; in Leith, 353; in Glasgow, 350; in Paisley, 337; in Greenock, 331; in Dundee, 305; in Edinburgh, 286; and in Perth, 267.

Of the 33,645 Births, 2207, or 6·6 per cent., were illegitimate. In the Insular-Rural Districts, 5·5 per cent. of the Births were illegitimate; in the Large Town Districts, 5·6; in the Small Town Districts, 5·9; in the Principal Town Districts, 6·4; and in the Mainland-Rural Districts, 8·5.

A comparative statement of the rate of illegitimacy in the Divisions and Counties of Scotland will be found in Tables I. and II. Table I. shows the rate of illegitimacy to have been highest in the North-Eastern and Southern Divisions; while from Table II. it will be seen that in eight of the Counties the rate of illegitimacy was over 10 per cent. The highest rate occurred equally in Elgin and Dumfries, viz., 13·0 per cent.; and the lowest rate in Shetland, viz., 3·2 per cent.

Of the 33,645 Births, 17,235 were of males, and 16,410 of females, being in the proportion of 105 males to every 100 females. 11,118 Births were registered during April, being at the rate of 371 daily; 11,232 during May, or 362 daily; and 11,295 during June, or 377 daily.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland, during the Quarter ending 30th June 1897.

## DEATHS.

The Deaths of 20,127 persons were registered in Scotland during the quarter, being at the annual rate of 191 for every ten thousand of the estimated population, or 1·91 per cent.

The number of Deaths registered in England and Wales during the quarter was 126,077, being at the annual rate of 163 for every ten thousand of the estimated population.

The Death-rate in the Principal Town Districts for every ten thousand of the estimated population was 210; in the Large Town Districts, 183; in the

Small Town Districts, 183; in the Mainland-Rural Districts, 170; and in the Insular-Rural Districts, 193.

The Death-rate in Aberdeen for every ten thousand persons was 168 ; in Dundee, 190 ; in Greenock, 192 ; in Paisley, 206 ; in Glasgow, 212 ; in Perth, 230 ; in Leith, 235, and in Edinburgh, 252.

Of the 20,127 Deaths, 10,060 were of males, and 10,067 of females. 7287 Deaths were registered during April, or 243 daily ; 6768 during May, or 218 daily ; and 6072 during June, or 202 daily.

### MARRIAGES.

8033 Marriages were registered in Scotland during the quarter, being at the rate of 76 for every ten thousand of the estimated inhabitants, or 0.76 per cent.

Marriages occurred in the Principal Town Districts at the annual rate of 97 for every ten thousand of the estimated population ; in the Large Town Districts at the rate of 74 ; in the Small Town Districts at the rate of 65 ; in the Mainland Rural Districts at the rate of 58 ; and in the Insular Rural Districts at the rate of 21.

In Edinburgh the annual Marriage-rate per ten thousand of the estimated inhabitants was 114 ; in Glasgow, 103 ; in Aberdeen, 95 ; in Leith, 94 ; in Perth, 92 ; in Greenock, 84 ; in Dundee, 79 ; and in Paisley, 78.

1861 Marriages were registered during April, being at the rate of 62 daily ; 1292 during May, or 42 daily ; and 4880 during June, or 163 daily.

### INCREASE OF POPULATION AND EMIGRATION.

The Births for the quarter having numbered 33,645, and the Deaths 20,127, the natural increase of the population, not allowing for changes caused by emigration or immigration, was 13,518. From Returns furnished by the Board of Trade it is found that the number of emigrants was 57,128, of whom 20,695 were English, 3683 Scottish, 16,311 Irish, 15,846 Foreigners, and 593 whose nationality was not distinguished, but of whom 39 may be assumed to be Scottish. Of immigrants no reliable estimate can be formed. If then 3683 + 39, the number of Scottish emigrants, be deducted from the number representing the excess of Births over Deaths, 9796 appears as the probable increase of the population for the quarter.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 30th June 1897.

## DISEASES IN THE ABOVE PRINCIPAL TOWNS.

About 36 per cent. of the population of Scotland being resident in these towns, it may be fairly assumed that diseases prevailing in them will also be found to a corresponding extent throughout the country.

The total deaths in these towns amounted to 2813 in April, 2912 in May, and 2531 in June; and of these 109 in April, 96 in May, and 119 in June were not specified or ill-defined.

Miasmatic Diseases caused 398 deaths in April, or 3·12 per thousand of estimated population; 462 in May, or 3·51 per thousand; and 300 in June, or 2·35 per thousand.

Measles caused 159 deaths in April, or 1·25 per thousand of estimated population; 172 in May, or 1·30 per thousand; and 110 in June, or 0·86 per thousand. Scarlet Fever caused 13 deaths in April, or 0·10 per thousand; 17 in May, or 0·13; and 16 in June, or 0·13. Hooping-Cough proved fatal to 156 persons in April, being at the rate of 1·22 per thousand; 180 in May, or 1·37; and 119 in June, or 0·93. To Diphtheria were attributed 21 deaths in April, or 0·16 per thousand; 24 in May, or 0·18; and 7 in June, or 0·05. Fevers caused 17 deaths in April, or 0·13 per thousand; 22 in May, or 0·17; and 28 in June, or 0·22.

Diarrhoea and Dysentery caused 59 deaths in April, or 0·46 per thousand of estimated population; 31 in May, or 0·24 per thousand; and 32 in June, or 0·25 per thousand.

Venereal Diseases caused 16 deaths in April, 15 in May, and 2 in June.

Intemperance was the cause of 9 deaths in April, of 8 in May, and of 3 in June.

Constitutional Diseases were the cause of 567 deaths in April, of 532 in May, and of 523 in June; and of these 121 in April, 96 in May, and 106 in June were from Cancer; and 278 or 2·18 per thousand of estimated population in April, 303 or 2·30 per thousand in May, and 269 or 2·11 per thousand in June from Phthisis.

From Developmental Diseases there resulted 174 deaths in April, 174 in May, and 181 in June.

To Diseases of the Nervous System were ascribed 326 deaths in April, 299 in May, and 297 in June.

Diseases of the Respiratory System caused 542 deaths in April, 598 in May, and 438 in June; and of these, 5 in April, 9 in May, and 6 in June, were from Croup; 226 in April, 270 in May, and 180 in June from Bronchitis; and 261 in April, 246 in May, and 210 in June from Pneumonia.

Diseases of the Digestive System resulted in 159 deaths in April, 178 in May, and 178 in June.

To Diseases of the Urinary System were attributed 68 deaths in April, 78 in May, and 75 in June.

Parturition, or conditions in connection therewith (including Puerperal Fever), caused 19 deaths in April, 11 in May, and 13 in June.

To Violent Causes were ascribed 91 deaths in April, 98 in May, and 98 in June.

#### WEATHER.

The following remarks on the weather of the quarter are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports :—

April was characterised by a rather low mean barometric pressure, with a monthly range also somewhat under the average; a mean temperature 2°·1 under the average, with the average mean daily range; a mean humidity slightly under the average; a mean rainfall very nearly the average, falling, however, on two days in excess of the average; three days' excess of easterly winds, and a like deficiency of northerly wind, with a mean force about the average.

May was characterised by a mean barometric pressure nearly the average, with a monthly range considerably above; a mean temperature 1°·6 under the average, with a mean daily range nearly 1°·0 above it; a mean humidity a good deal under the average; a mean rainfall slightly above the average, falling on the average number of days; a mean direction of the wind nearly the normal, with a mean force a good deal above the average.

June was characterised by a mean barometric pressure rather above the average, with a monthly range a little above the average; a mean temperature a degree under the average, with a mean daily range lower than any that has occurred since 1879; a very large mean humidity, which during the past forty-two years has only been exceeded in 1872 and 1874; an unusually heavy rainfall, and falling on six days more than the average; and a large preponderance of easterly winds.

The mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·824 inches in April, 29·930 inches in May, and 29·999 inches in June. The mean temperature for the quarter was 47°·8, being 1°·9 below the average mean temperature for the quarter during the last ten years. The mean temperature during April was 41°·9, during May 47°·3, and during June 54°·3. The absolute highest temperature was 64°·0 in April, 76°·0 in May, and 81°·0 in June; the absolute lowest temperature being 13°·4 in April, 21°·2 in May, and 28°·0 in June. Rain fell on 14 days in April, on 14 days in May, and on 16 days in June; the mean depth being 2·17 inches in April, 2·29 inches in May, and 4·10 inches in June. Winds with an easterly point blew on 13 days in April, on 11 days in May, and on 13 days in June. Winds with a westerly point blew on 10 days in April, on 13 days in May, and on 10 days in June. Northerly winds blew on 7 days in April, on 9 days in May, and on 8 days in June. Southerly winds blew on 12 days in April, on 10 days in May, and on 9 days in June.

135	Elgin .. ..	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie .. ..	Parts of Bellie and Rathven.
155b	Glenrinnes .. ..	Parts of Aberlour and Morthlach.
167	Seafield .. ..	Parts of Cullen and Rathven.
168	Aberdeen .. ..	Part of City Parish of Aberdeen and Old Machar.
171b	Ardallie .. ..	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinninmonth .. ..	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar .. ..	Logie Coldstone and part of Glenmuick, Tullich, and Glengairn.
222b	Millbren .. ..	Parts of Fyvie and Monquhitter.
227b	New Pittligo .. ..	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter .. ..	(1) Parts of City Parish of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch .. ..	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells .. ..	Parts of Auchterless and Forgue.
266	Nigg .. ..	Part of City Parish of Aberdeen and Nigg.
282	Dundee .. ..	Dundee, and part of Liff, Benzie, and Invergowie.
294b	Kilry .. ..	Parts of Glenisla and Lintrathen.
324	Aberfeldy .. ..	Parts of Dull, Kenmore, and Logierait.
328b	Ardoch .. ..	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven .. ..	Parts of Auchtergaven and Logiealmond.
331	Balquhiddier .. ..	Balquhiddier, and part of Comrie.
344	Dowally .. ..	Part of Dunkeld & Dowally.
349	Dunkeld .. ..	Part of Dunkeld & Dowally.
355b	Foss .. ..	Parts of Kenmore and Killin.
361	Killin .. ..	Parts of Logiealmond, Little Dunkeld, and Methven.
375	Logiealmond .. ..	Meikle, and part of Coupar-Angus.
379	Meikle .. ..	Parts of Alyth, Blairgowrie, and Kirkmichael.
386b	Perrie .. ..	Perth, and part of Kinnoull.
387	Perth .. ..	Parts of Auchtergaven, Kinclaven, and Redgorton.
393b	Stanley .. ..	Part of Killin.
394b	Strathfillan .. ..	Parts of Blair Athol and Moulin.
394c	Tenantry .. ..	Anstruther-Easter, and part of Kilrenny.
402	Anstruther-Easter .. ..	Part of Crail and May Island.
417	Crail .. ..	Dunbog, and part of Flish.
423	Dunbog .. ..	Dunino, and part of Crail.
425	Dunino .. ..	Kirkcaldy, Abbotshall, and part of Kinghorn.
442	Kirkcaldy and Abbotshall .. ..	Parts of Bothkennar, Falkirk, and Polmont.
481b	Grangemouth .. ..	St Ninians, and part of Stirling.
488	St Ninians .. ..	Dumbarton, and part of Cardross.
496	Dumbarton .. ..	(1) Parts of Ardnamurchan, and Arisaig and Moidart; (2) Remainder of Arisaig and Moidart.
505	Ardnamurchan .. ..	Parts of Kilmallie, and Ardgour.
506	Ballachulish, etc. .. ..	Parts of Glassary, and Glenaray.
509	Cumlodden and Minard .. ..	Inveraray, and part of Glenaray.
513	Inveraray .. ..	Kilbrandon and Kilchattan, and part of Jura.
515	Kilbrandon and Kilchattan .. ..	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
517	Kilchrenan, etc. .. ..	Parts of Kilmallie, and Ardgour.
520	Kilmallie .. ..	Lismore and Appin, and part of Kilmallie.
525	Lismore .. ..	Parts of Glassary and South Knapdale.
526	Lochgillhead .. ..	Parts of Ardchattan and Mucklarn, and Glenorchy and Inishail.
529	Mucklarn .. ..	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
535	Tarbert .. ..	Part of Kilarrow, and Kilmeny.
536	Bowmore (or Kilarrow) .. ..	Part of Kilarrow and Kilmeny.
543	Kilmeny .. ..	Part of Pennygown and Torosay.
545	Kinlochspelve .. ..	Part of Kilchoman.
547	Portnahaven .. ..	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
548	Salen .. ..	Part of Kilninian and Kilmore.
549	Tobermory .. ..	Part of Pennygown and Torosay.
550	Torosay .. ..	Parts of Kilbride and Kilmory.
556	Lochranza .. ..	Parts of Housoun and Killellan, and Kilbarchan.
559b	Bridge of Weir .. ..	(1) Part of Neilston; (2) Remainder of Neilston and part of Abbey.
572	Neilston .. ..	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
576	Ardrossan .. ..	Parts of Kirkmichael, Kirkoswald, and Maybole.
584b	Crosshill .. ..	Irvine, and part of Dundonald.
595	Irvine .. ..	Parts of Dalmenington, Dalrymple, Kirkmichael, and Straiton.
610b	Patna .. ..	Parts of Cambusnethan and Shotts.
626b	Calderhead .. ..	City of Glasgow, Gorbals, and parts of Barony, and Govan.
644	Glasgow .. ..	

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
693	Liberton .. ..	Parts of Liberton and Inveresk.
698b	Stobhill .. ..	Parts of Borthwick, Cockpen, and Newbattle.
774a	Caddonfoot .. ..	Parts of Galashiels, Innerleithen, Selkirk, Stow, and Yarrow.
787b	Edgerston .. ..	Parts of Jedburgh, and Southdean.
812b	Brydekirk .. ..	Parts of Annan, Cummertrees, and Hoddum.
830	Holywood .. ..	Holywood, and part of Terregles.
853b	Wanlockhead .. ..	Part of Sanquhar.
857b	Bargrennan .. ..	Parts of Minnigaff (Kirkcudbright) and Penninghame (Wigtown).
862	Corsockbridge .. ..	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie .. ..	Part of Urr.
899	Stranraer .. ..	Stranraer, and parts of Inch, and Leswalt.

# METEOROLOGICAL REPORT

FOR THE MONTHS OF

APRIL, MAY, JUNE.

1897.

NOTES ON THE NUMERICAL RETURNS OF SCOTTISH METEOROLOGY  
FOR THE QUARTER ENDING 30TH JUNE 1897.

By Dr BUCHAN, under the Direction of the Council of the Scottish Meteorological Society.

THESE returns are founded on the observations made, morning and evening, at 67 of the Stations of the Scottish Meteorological Society, and have been prepared from the Observers' separate schedules.

From the individual results for each station, the following collective results have been obtained, assuming them to have been equally well observed, and to represent the whole country :—

COLLECTED RETURNS FOR ALL THE ACCEPTED STATIONS OF THE SCOTTISH METEOROLOGICAL SOCIETY, HAVING A MEAN LATITUDE =  $56^{\circ} 33' N.$ ; MEAN LONGITUDE =  $3^{\circ} 46' W.$ ; AND MEAN ELEVATION = 279 Feet.

And when these results are compared with the averages of 1856-95, during the same months, they show the following characteristics and differences.

APRIL 1897—

Mean Barometric Pressure, 29.824 inches; less than the average of 1856-95 by 0.069 inch.

Monthly Range, 1.118 inch; less by 0.096 inch.

Mean Temperature,  $41^{\circ} 9$ ; less by  $2^{\circ} 2$ .

Mean Daily Range,  $14^{\circ} 8$ ; greater by  $0^{\circ} 4$ .

Mean of Black Bulb in Sun,  $82^{\circ} 3$ ; greater by  $7^{\circ} 1$ .

Do. at Night,  $30^{\circ} 3$ ; less by  $1^{\circ} 8$ .

Mean Humidity, 81; less by 1.0.

Rain, Number of Days, 14; greater by 2 days.

Rain, Depth in Inches, 2.17; greater by 0.03 inch.

Wind, Pressure on Square Foot, 2.08 lbs.; greater by 0.31 lb.

Wind, Direction of, E. to W. as 9 to 7, and N. to S. as 5 to 8; in place of E. to W. as 8 to 8, and N. to S. as 6 to 6.

Hours of Sunshine, 140; less by 21 hours.

Mean Amount of Cloud, 6.0; less by 2.2.

**MAY 1897—**

Mean Barometric Pressure, 29·930 inches; less than the average of 1856-95 by 0·003 inch.

Mean Range, 1·294 inch; greater by 0·225 inch.

Mean Temperature, 47°·3; less by 1°·7.

Mean Daily Range, 16°·6; greater by 1°·2.

Mean of Black Bulb in Sun, 91°·4; greater by 8°·2.

Do. at Night, 34°·8; less by 1°·4.

Mean Humidity, 78; less by 2·0.

Rain, Number of Days, 14; greater by 1 day.

Rain, Depth in Inches, 2·29; being the average.

Wind, Pressure on Square Foot, 2·16 lbs.; greater 0·61 lb.

Wind, Direction of, E. to W. as 8 to 9; and N. to S. as 6 to 6; in place of E. to W. as 8 to 8, and N. to S. as 6 to 7.

Hours of Sunshine, 185; less by 11 hours.

Mean Amount of Cloud, 5·9; less by 3·3.

**JUNE 1897—**

Mean Barometric Pressure, 29·999; greater than the average of 1856-95 by 0·058 inch.

Monthly Range, 0·876; less by 0·079 inch.

Mean Temperature, 54°·3; less by 0°·5.

Mean Daily Range, 14°·5; less by 1°·3.

Mean of Black Bulb in Sun, 93°·1; greater 1°·7.

Do. at Night, 43°·6; greater 1°·8.

Mean Humidity, 82; greater 1°·8.

Rain, Number of Days, 16; greater by 3 days.

Rain, Depth in Inches, 4·10; greater by 1·62 inch.

Wind, Pressure on Square Foot, 1·70 lbs.; greater 0°·27 lb.

Wind, Direction of, E. to W. as 10 to 7; and N. to S. as 5 to 6; in place of E. to W. as 6 to 7, and N. to S. as 5 to 7.

Hours of Sunshine, 120; less by 96 hours.

Mean Amount of Cloud, 7·5; greater 1·4.

The weather of APRIL 1897 was thus characterised by a barometric pressure a little under the average, with a monthly range much below it; a very low mean temperature, with a mean daily range a little above it; a mean humidity a little less than the average; a mean rainfall nearly the average, falling on fourteen days, or two days above the average; and a slight excess of south-easterly winds.

The mean barometric pressure was 29·824 inches, or 0·069 less than the average. The deficiency was greater at western than at eastern stations, with the result that, steeper gradients being formed from west to east, the force of the wind was a little in excess of the average. On the 13th a storm was generally experienced in the east of the country, and in the west storms prevailed less generally from the 11th to the 16th.

The mean temperature was 41°·9, or 2°·2 under the average, the deficiency of the days and nights being nearly equal. The deficiency of temperature was markedly greater at inland than at coast stations. At several inland stations the deficiency was more than three degrees; whereas near the coast, both east and west, it was generally from a degree and a half to a degree. The absolutely highest temperature was 64°·0 at Pimmore on the 27th, and the lowest, 13°·4, at Braemar on the 3rd.

The mean rainfall was 2·17 inches, being about the average. Its distribution over the country was very peculiar. All round the coasts it was under the average. The deficiency in the west from Corsewall in Wigtownshire to Cape Wrath was almost wholly confined to places near the coast, but in the east it extended nearly to the watershed of the country. The deficiency was greatest at stations near the east coast from Caithness to Kinnaird Head, and from Arbroath to the Tweed, where rather less than half the usual rainfall of April was collected. On the other hand, the rainfall exceeded the average in inland situations from Glencarron to Upper Clydesdale, and on the Solway coast, the excess being generally from 25 to 50 per cent.

**MAY 1897—**

The weather of MAY 1897 was thus characterised by a mean barometric pressure near the average, with a monthly range greatly above it; a rather low mean temperature, with a mean daily range fully a degree above it; a mean humidity a good deal under the average; an average rainfall, falling on the average number of days, with winds the average direction very nearly, but blowing with a force considerably stronger than the average.

The mean barometric pressure was 29·930, being nearly the average. On examining, however, the averages in different parts of the country, pressure is seen to be 0·030

inch above the average on the Solway, the average at Fort-William, but 0·050 inch under it at North Unst. Thus, steeper gradients were formed for wind than usual, and consequently stronger winds prevailed. The storm of the 4th and 5th overspread the whole country; but stormy weather was of repeated occurrence at some stations from the 1st to the 11th, and in the south-west on the 29th and 30th.

The mean temperature was 47°·3, or 1°·7 under the average, the deficiency of the days being 1°·1 and of the nights 2°·3, the nights being thus relatively much colder than the days. The deficiency was very unequally distributed, being only about half a degree in the south-west from Barrahead to the Mull of Galloway; but in the Lewis and in the east from Caithness to the Tweed, it was generally from 2°·5 to 3°·0, the greatest cold being on the north-east coast of Aberdeenshire. The deficiency increased regularly on proceeding from south-west to north-east. The absolutely highest temperatures was 76°·0 at Roshven on the 17th, and 21°·2 at Kingussie on the 1st.

The mean rainfall was 2·29 inches, being the average. Its distribution among the stations was very irregular. It was above the average in a large district inclosed by a line drawn from Braemar through Fort-Augustus, Dunrobin, Cape Wrath, Butt of Lewis, Monach, Rona, Roshven, Poltalloch, Rothesay, and Glasgow, to Braemar. It was also above the average in Orkney and the southern half of Shetland. At a number of places the excess exceeded 50 per cent. In all other parts of Scotland the rainfall was less than the average, the greatest deficiency being in the counties of Fife, the three Lothians, Berwick, Peebles, and Galloway, the amount in many places being only half the average. The greater part by far fell on the first and the last week of the month. During the first ten days showers of hail were of frequent occurrence.

#### JUNE 1897—

Thus the weather of JUNE 1897 was in many ways remarkable. It was characterised by a rather high barometric pressure, with a rather low monthly range; a mean temperature half a degree below the average, with a mean daily range also below the average; a large mean humidity; an amount of cloud and deficiency of sunshine, absolutely unprecedented during the past forty-seven years, the sunshine being 45 per cent. less than the average; a heavy rainfall, falling on three days more than the average; and a large predominance of easterly winds.

The mean barometric pressure was 29·999 inches, or 0·058 inch above the mean. The excess was considerably greater in the north and east than in the south and west, which resulted in a great prevalence of easterly winds which came charged with vapour, cloud, and rain from the North Sea. Storms of winds occurred at places south of the Grampians on the 16th and 17th, and in the extreme northwest on the 21st. Otherwise the weather was free from storms.

The mean temperature was 54°·3, or 0°·5 under the average, the days being 1°·2 under, but the nights 0°·1 above the average, thus testifying to the clouded sunless character of the weather of the month. A widespread thunderstorm on the 14th ushered in an eight days' period of persistent east wind which arrived on the coast laden with clouds, which gradually broke up and disappeared as they reached the interior. On these days the day temperatures were very low, but in inland situations unusually high. A remarkable distribution of temperature for the month was the consequence. Over the whole of the east coast and for some distance inland, determined by the degree to which the place is open to east winds, temperature was under the average, the greatest deficiency being in the north-east of Aberdeen, where it was 2°·0. Similarly on the west coast from Skye to the Solway, temperature was also under the average, the deficiency on the southern half of the Firth of Clyde being fully a degree, arising from clouded west winds which cleared as they advanced inland. On the other hand, the whole of the inland districts from the Solway to Lairg, together with Lewis, Skye, and the west of Ross and Sutherland, was above the average temperature of June. In Galloway the excess was about a degree and a half, and fully a degree at Dalnaspidal, Kingussie, and Lairg.

The rainfall was 4·10 inches, or 66 per cent. above the average, but its distribution over the country was singularly unequal, presenting strong contrasts of very unusual occurrence. Thus, to the north-west of the Caledonian Canal, the rainfall was everywhere under the average, the deficiency being 86 per cent. in the west of Sutherland, 82 per cent. at Stornoway, and 78 per cent. at Ushinish. On the other hand, to the south-west of the Caledonian Canal, the rainfall was everywhere above the average, and the large excess and breadth of country covered by it was well-nigh unprecedented. The following are among the more striking percentages of excess from different districts:—160 at Ardrossan, 156 at Dundee, 148 at Dumbarton, 142 at Keith, Ochtertyre, and Mull of Galloway, 138 at Ardwell, 130 at Gordon Castle, Aberlour, Dollar, Pladda, and Corsewall, and 120 at Logie-Coldstone, Loch Leven, and Duntreath. The rainfall for the week beginning with the 14th was heavy, and on the 15th or 16th an inch and a half fell at many places, and two inches were exceeded at Paisley, Glasgow, Dumbarton, and Ardrossan, there falling at this last place 2·27 inches on the 15th.

## REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

### INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

*The Figures refer to the Numbers of the Districts in the preceding Tables.*

#### I. NORTHERN DIVISION.

##### 1. SHETLAND.

5 (2). BURRA ISLES.—Only two deaths recorded, one of a female aged 89 years, and another of a male aged 80 years.

##### 2. ORKNEY.

24. ROUSAY AND EGILSHAY.—Severe Influenza Colds prevalent amongst old and young.

##### 3. CAITHNESS.

36. DUNNET.—Of the nine persons who died during the quarter, two were aged 86, and one 80 years. Two cases of Drowning were caused by the swamping of a small boat.

41. THURSO.—Of the thirty deaths recorded, eleven were of persons whose respective ages ranged from 75 to 91 years.

42. WATTEN.—Two of the deaths in June resulted from Measles, which was imported into this district at the Whitsunday term. The epidemic has at present subsided.

43. WICK.—The high death-rate in June was caused by an epidemic of Measles.

#### II. NORTH-WESTERN DIVISION.

##### 5. ROSS AND CROMARTY.

##### *Mainland.*

58 (1). APPLECROSS.—Mumps in epidemic form prevailed during May and June. Most of the children were in consequence laid up for ten days but none of the cases terminated fatally.

78. Nigg.—Deaths for April above the average, four being of Seamen from Drowning, their vessel having been wrecked on the coast.

81. ROSSKEEN.—Deaths much above the average, being chiefly of persons whose ages ranged from 72 to 93 years. Hooping-Cough prevalent, and some of the schools had to be closed.

*Insular.*

86b. CARLOWAY.—Deaths above the average, in consequence of the prevalence of Influenza.

88. STORNOWAY.—Deaths above the average; more than half were of persons over 60 years of age.

6. INVERNESS.

*Mainland.*

92a (2). FORT AUGUSTUS OR ABERTARFF.—German Measles, of a mild type, and Scarlet Fever, prevalent, the latter proving fatal in two cases. Precautions were taken by closing the schools for the summer vacations a month earlier than usual.

95. DAVIOT AND DUNLIGHTY.—In consequence of a severe epidemic of Hooping-Cough, three of the schools were closed during April and May. Deaths far above the average, but none from Hooping-Cough. Three of the four females whose deaths are recorded had reached the average age of 88 years.

*Insular.*

111 (1). NORTH HARRIS.—Of the twenty-two deaths registered, one was caused by suicide, and another by accidental drowning.

112 (2). STENSCHOLL.—Deaths above the average, probably in consequence of the prevalence of Influenza.

113. NORTH UIST.—Of the twenty-two deaths, five resulted from Croup.

118 (3). BOISDALE.—Influenza prevalent, and caused eleven of the twenty-six deaths.

III. NORTH-EASTERN DIVISION.

9. BANFF.

153 (1). FORDYCE.—Hooping-Cough very prevalent, and caused three of the five deaths.

10. ABERDEEN.

171. ALFORD.—Scarlet Fever prevalent. One death from that cause.

243. TARVES.—Eight of the eleven Deaths registered were of persons aged respectively 71, 76, 77, 77, 82, 84, 86, and 88 years. Measles of a mild type was introduced into the parish from the parish of Ellon.

247. TURRIFF.—Illegitimate Births much above the average.

11. KINCARDINE.

251 (2). PORTLETHEN.—The falling off in the Marriages is occasioned to a large extent by the fact that a good many fishermen are leaving the villages every year for the larger centres.

266. NIGG (LANDWARD).—The eleven deaths registered in June were of persons drowned on 3rd May, off Girdleness, by collision between the steamers "Girnigoe" and "Collynie."

IV. EAST-MIDLAND DIVISION.

12. FORFAR.

238. FORFAR.—Compared with the corresponding quarter of last year, there is an increase of twenty in the Births, and thirteen in the Marriages, but a decrease of thirteen in the Deaths.

13. PERTH.

325. ABERFOYLE.—Public school closed owing to an extensive outbreak of Measles.

330. AUCHTERGAVEN.—Three of the six deaths recorded were of persons aged respectively 83, 84, and 97 years.

334. BLAIR-ATHOL.—One of the deaths in April was that of a man 97 years of age. Hooping-Cough of a mild type prevalent.

336. CALLANDER.—Deaths above the average, mainly in consequence of the peculiarly cold weather of the Spring Season.

341b. CUPAR-ANGUS.—Of the fifteen deaths, six were of persons whose respective ages ranged from 70 to 90 years.

373. LITTLE DUNKELD.—Of the twelve deaths registered, six took place in the Perth District Asylum, and were all of persons belonging to other parishes.

375. LOGIEALMOND.—Two of the deaths in May were caused by blasting operations at a slate quarry.

383. MONZIEVAIRD AND STROWAN.—Of the four deaths for the quarter, all of which occurred in April, three were of persons aged respectively 64, 81, and 83 years.

393b. STANLEY.—Of the five deaths recorded, three were of persons aged respectively 77, 78, and 85 years.

14. FIFE.

420. CUPAR.—Of the fifty-two deaths registered twenty-one occurred in the Fife and Kinross Asylum.

432. INVERKEITHING. — Measles epidemic in the District, and more particularly in the Burgh of Inverkeithing during the last half of June.

## V. WEST-MIDLAND DIVISION.

### 17. STIRLING.

475. CAMPSIE. — The deaths include those of three females aged respectively 92, 90, and 84 years, and of one male aged 83.

486. MUTRAVONSIDE. — Measles prevalent, and fatal in many cases.

### 18. DUMBARTON.

497. KILMARONOCK. — Parish unusually healthy. Only two deaths during the past six months, one of a child prematurely born, and another of a farmer who was killed while driving a horse and cart. Births above the average.

### 19. ARGYLL.

#### *Mainland.*

510 (2). KILMUN. — Measles very prevalent. Both schools closed.

515. KILBRANDON AND KILCHATTAN. — There is an epidemic of Diarrhoea at present in the district.

#### *Insular.*

539 (2). COLONSAY AND ORONSAY. — Deaths above the average. Of the five registered, one was that of the oldest man in the Island, who was aged 91 years. Another death was from Accidental Drowning.

539 (1). JURA. — The ages of the four persons whose deaths were recorded were 74, 89, 90, and 92 years respectively.

551 (2). COLL. — The ages of the three persons who died during the quarter were respectively 78, 78, and 90 years. Influenza very prevalent, but no fatal cases.

## VI. SOUTH-WESTERN DIVISION.

### 21. RENFREW.

565. HOUSTON AND KILLELLAN. — Of the nine deaths, seven were of persons whose respective ages ranged from 60 to 86 years.

### 22. Ayr.

581. BEITH. — Measles prevalent during May. Several deaths therefrom.

584b. CROSSHILL. — Deaths above the average. Of the ten registered all were of females, the youngest 5½ hours old, the eldest 86 years.

594. GIRVAN. — Of the twenty-three deaths registered, five were of persons aged respectively 78, 79, 81, 84, and 92 years, and eight were of children under one year. One death was that of a man whose body was washed ashore.

### 23. LANARK.

626a (2). EASTERN DISTRICT OF CADDER. — Deaths greatly above the average, and nearly double the number up to the same date last year. Measles, of an epidemic form, is responsible for the increased mortality.

## VII. SOUTH-EASTERN DIVISION.

### 24. LINLITHGOW.

663. BORROWSTOUNNESS. — Owing to an epidemic of Scarlet Fever the death-rate in May was considerably above the average.

667. KIRKLISTON. — Three of the deaths were caused by Measles, and one by Scarlet Fever. Two persons who died were aged respectively 88 and 91 years.

672. UPHALL. — The deaths for the corresponding quarter of last year numbered thirty-seven, while for the past quarter the number is ninety-eight. This increase is largely due to an outbreak of Measles, which, however, is now fast disappearing.

### 25. EDINBURGH.

677. COLINTON. — Four of the six Illegitimate Births occurred in Craiglockhart Poorhouse.

687. GLENCORSE. — Measles prevalent, and one death in consequence.

### 26. HADDINGTON.

705. DIRLETON. — Deaths above the average. One caused by accident.

723. WHITEKIRK AND TYNNINGHAME. -- The three deaths of males registered in June were of fishermen who were drowned off Scoughall Rocks.

27. BERWICK.

740. FOGO. -- Scarlet Fever prevalent. One case fatal.

741. FOULDEN. -- Two of the three deaths recorded were of persons aged respectively 73 and 84 years.

VIII. SOUTHERN DIVISION.

30. ROXBURGH.

785 (2). KIRKTON. -- Measles epidemic during May and early part of June. None of the cases fatal. School closed for five weeks.

792. JEDBURGH. -- Measles epidemic at present. Schools closed.

799 (1). MELROSE. -- Death-rate much above the average, probably in consequence of Influenza and variability of climate.

807. SPROUSTON. -- A few cases of Measles since middle of June.

# INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.\**

		Broughton, . . 758		

\* The actual number of Districts is 1064—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.

1897.

# REPORT.

DURING the quarter ending 30th September 1897, there were registered in Scotland 32,127 Births, 18,039 Deaths, and 7,559 Marriages. Table III. shows these numbers to have been all above the average for the corresponding quarter of the last ten years.

TABLE I.—Births, Deaths, and Marriages in Scotland, its Groups of Districts and Divisions, during the Quarter ending 30th September 1897, with their Proportion to the Population, also the Illegitimate Births, and their Proportion to the Total Births.

## BIRTHS.

32,127 Births were registered in Scotland during the quarter, being at the annual rate of 302 for every ten thousand of estimated population, or 3.02 per cent.

For every ten thousand persons in the Principal Town Districts, the Birth-rate was 311; in the Large Town Districts, 319; in the Small Town Districts, 315; in the Mainland-Rural Districts, 271; and in the Insular-Rural Districts, 238.

In Leith the Birth-rate for every ten thousand persons was 336 ; in Glasgow, 322 ; in Aberdeen, 319 ; in Greenock, 313 ; in Paisley, 307 ; in Dundee, 292 ; in Perth, 291 ; and in Edinburgh, 271.

Of the 32,127 Births, 2285, or 7·1 per cent., were illegitimate. In the Large Town Districts, 5·4 per cent. of the Births were illegitimate ; in the Insular-Rural Districts, 5·7 ; in the Small Town Districts, 6·2 ; in the Principal Town Districts, 7·2 ; and in the Mainland-Rural Districts, 9·3.

A comparative statement of the rate of illegitimacy in the Divisions and Counties of Scotland will be found in Tables I. and II. From these it is seen that the rate was highest in the North-Eastern and Southern Divisions ; and that in eight of the Counties the rate was over 10 per cent. The highest rate in any of the counties occurred in Wigtown, viz., 14·3 per cent. ; and the lowest in Dumbarton, viz., 2·2 per cent.

Of the 32,127 Births, 16,347 were of males, and 15,780 of females, being in the proportion of 104 males for every 100 females. 11,086 Births were registered during July, being at the rate of 358 daily ; 10,828 during August, or 349 daily ; and 10,213 during September, or 340 daily.

## DEATHS.

The Deaths of 18,039 persons were registered in Scotland during the quarter, being at the annual rate of 170 for every ten thousand of the estimated population, or 1·70 per cent.

The number of Deaths registered in England and Wales during the quarter was 139,020, being at the annual rate of 178 for every ten thousand of the estimated population.

In the Principal Town Districts the Death-rate for every ten thousand of the estimated population was 189 ; in the Large Town Districts, 169 ; in the

Small Town Districts, 165; in the Mainland-Rural Districts, 143; and in the Insular-Rural Districts, 130.

The Death-rate in Aberdeen for every ten thousand of estimated population was 152 ; in Perth, 179 ; in Edinburgh, 183 ; in Paisley, 190 ; in Glasgow, 193 ; in Dundee, 204 ; in Greenock, 205 ; and in Leith, 217.

Of the 18,039 Deaths, 9073 were of males, and 8966 of females. The Deaths during July amounted to 5813, or 188 daily ; during August, 6385, or 206 daily ; and during September, 5811, or 195 daily.

### MARRIAGES.

7559 Marriages were registered in Scotland during the quarter, being at the annual rate of 71 for every ten thousand of the estimated population, or 0·71 per cent.

The Marriage rate in the Principal Town Districts was 95 for every ten thousand of the estimated population ; in the Large Town Districts, 74 ; in the Small Town Districts, 60 ; in the Mainland-Rural Districts, 43 ; and in the Insular-Rural Districts, 18.

In Edinburgh, and in Aberdeen, Marriages occurred at the annual rate of 106 for every ten thousand of the estimated population ; in Paisley, at the rate of 98 ; in Glasgow, at the rate of 96 ; in Greenock, at the rate of 88 ; in Dundee, at the rate of 87 ; in Perth, at the rate of 81 ; and in Leith, at the rate of 80.

3595 Marriages were registered during July, being at the rate of 116 daily ; 2062 during August, or 67 daily ; and 1902 during September, or 63 daily.

### INCREASE OF POPULATION AND EMIGRATION.

The Births for the quarter having numbered 32,127, and the Deaths 18,039, the natural increase of the population, not allowing for changes caused by emigration or immigration, was 14,088. Of the number of immigrants no reliable estimate can be formed, but from the Returns furnished by the Board of Trade it is found that the number of emigrants was 76,264, of whom 34,290 were English, 6636 Scottish, 10,723 Irish, 23,571 Foreigners, and 1044 whose nationality was not distinguished, but of whom 92 may be assumed to have been Scottish. If then 6636 + 92, the number of Scottish emigrants, be deducted from the number representing the excess of Births over Deaths, 7360 appears as the probable increase of the population for the quarter.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 30th September 1897.

## DISEASES IN THE ABOVE PRINCIPAL TOWNS.

About 36 per cent. of the population of Scotland being resident in these towns, it may be assumed that diseases prevailing in them will be found to a corresponding extent throughout the country.

From all causes there occurred 2387 deaths in July, 2651 in August, and 2384 in September; and of these 135 in July, 130 in August, and 116 in September were not specified or ill-defined.

Miasmatic Diseases caused 235 deaths in July, or 1.79 per thousand of estimated population; 200 in August, or 1.52 per thousand; and 179 in September, or 1.41 per thousand.

Measles caused 55 deaths in July, or 0.42 per thousand of estimated population; 39 in August, or 0.30 per thousand; and 15 in September, or 0.12 per thousand. Scarlet Fever caused 28 deaths in July, or 0.21 per thousand; 32 in August, or 0.24 per thousand; and 22 in September, or 0.17 per thousand. Hooping-Cough resulted fatally in 110 cases in July, or 0.84 per thousand; 92 in August, or 0.70 per thousand; and 74 in September, or 0.58 per thousand. Diphtheria was the cause of 5 deaths in July, or 0.04 per thousand; 9 in August, or 0.07 per thousand; and 24 in September, or 0.19 per thousand. To Fevers were ascribed 28 deaths in July, or 0.21 per thousand; 18 in August, or 0.14 per thousand; and 32 in September, or 0.25 per thousand.

Diarrhoea and Dysentery caused 94 deaths in July, or 0.71 per thousand of estimated population; 325 in August, or 2.47; and 146 in September, or 1.15.

Venereal Diseases caused 9 deaths in July, 14 in August, and 7 in September.

From Intemperance there resulted 8 deaths in July, 8 in August, and 8 in September.

Constitutional Diseases were the cause of 472 deaths in July, of 483 in August, and of 466 in September; and of these 89 in July, 103 in August, and 124 in September were from Cancer; and 246, or 1·87 per thousand of estimated population, in July, 243, or 1·85 per thousand in August, and 208, or 1·63 per thousand in September from Phthisis.

To Developmental Diseases were ascribed 177 deaths in July, 139 in August, and 162 in September.

To Diseases of the Nervous System were attributed 287 deaths in July, 307 in August, and 279 in September.

Diseases of the Respiratory System caused 329 deaths in July, 302 in August, and 393 in September; and of these, 5 in July, 6 in August, and 11 in September were from Croup; 126 in July, 129 in August, and 152 in September from Bronchitis; and 159 in July, 132 in August, and 184 in September from Pneumonia.

Diseases of the Digestive System proved fatal in 181 cases in July, 304 in August, and 241 in September.

Diseases of the Urinary System caused 71 deaths in July, 59 in August, and 63 in September.

Parturition, or conditions in connection therewith (including Puerperal Fever), caused 17 deaths in July, 14 in August, and 15 in September.

To Violent Causes were attributed 95 deaths in July, 102 in August, and 76 in September.

#### WEATHER.

The following remarks on the weather of the quarter are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports :—

July was characterised by a mean barometric pressure, considerably above the average, with a monthly range a little above it; a mean temperature fully a degree above the average, with an unusually large mean daily range, which, during the last forty-two years, was exceeded only in July 1868, when the range was 17·2; a very low mean humidity, a mean rainfall, both in amount and frequency of fall, a good deal under the average; and a slight excess of north-easterly winds.

August was characterised by a mean barometric pressure unusually low, with a monthly range a little above the average; a mean temperature unusually high, with a mean daily range nearly a degree above the average; a mean humidity slightly above the average; a mean rainfall considerably above the average, falling on three more days than the average; and a very large excess of southerly winds.

September was characterised by a mean barometric pressure, and a monthly range both a little above the average; a mean temperature about a degree and a half under the average, accompanied with a mean daily range unusually high; a mean humidity rather less than the average; a mean rainfall an inch under the average, but falling on two days more than the average; and three days' excess of north-westerly winds.

The mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·941 inches in July, 29·686 inches in August, and 29·882 inches in September. The mean temperature for the quarter was 56°·0, being 0°·9 above the average mean temperature for the quarter during the last ten years. The mean temperature during July was 58°·2, during August 58°·9, and during September 51°·0. The absolute highest temperature was 87°·0 in July, 85°·6 in August, and 78°·0 in September; the absolute lowest temperature being 32°·5 in July, 35°·3 in August, and 26°·7 in September. Rain fell on 12 days in July, on 19 days in August, and on 18 days in September; the mean depth being 2·44 inches in July, 4·59 inches in August, and 3°·46 inches in September. Winds with an easterly point blew on 8 days in July, on 9 days in August, and on 4 days in September. Winds with a westerly point blew on 16 days in July, on 13 days in August, and on 18 days in September. Northerly winds blew on 7 days in July, on 4 days in August, and on 10 days in September. Southerly winds blew on 9 days in July, on 15 days in August, and on 9 days in September.

[illegible]

Districts containing Parliamentary and Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Towns of 2000 Inhabitants and upwards are printed in small capitals, thus—CARLISLE.  
*N.B.*—An asterisk "\*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or are comprised of more, or parts of more than one Parish, and the component parts of these Districts will be found on page 46.  
 A dagger "†" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.  
 † Batmans not received. The numbers given are estimated from those for the corresponding quarter of the last three years.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING  
TABLES BY AN ASTERISK (\*).

No.	Districts.	Component Parts (Parishes).
13	Birsay .. ..	Part of Harray and Birsay.
14	Deerness .. ..	Part of St Andrews.
18	Harray .. ..	Part of Harray and Birsay.
22	North Ronaldshay .. ..	Part of Cross and Burness.
26	Sanday .. ..	Lady, and part of Cross and Burness.
37b	Keiss .. ..	Parts of Cannibay and Wick.
58	Applecross .. ..	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59b	Carnoch .. ..	Parts of Conain and Urray.
86b	Carloway .. ..	Parts of Barvas and Uig.
87	Lochs .. ..	Lochs and part of Uig.
92b	Cannich .. ..	Parts of Kilmarack, and Kiltarlity & Convinth.
112	Kilmuir .. ..	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
135	Elgin .. ..	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie .. ..	Parts of Bellie and Rathven.
155b	Glenrinnies .. ..	Parts of Aberlour and Mortlach.
167	Seafeld .. ..	Parts of Cullen and Rathven.
168	Aberdeen .. ..	Part of City Parish of Aberdeen and Old Machar.
171b	Ardallie .. ..	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinninmonth .. ..	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cronmar .. ..	Logie Coldstone and part of Glenmuick, Tullich, and Glengairn.
222b	Milbriex .. ..	Parts of Eyvie and Monquhitter.
227b	New Pittligo .. ..	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter .. ..	(1) Parts of City Parish of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch .. ..	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells .. ..	Parts of Auchterless and Forgue.
266	Nigg .. ..	Part of City Parish of Aberdeen and Nigg.
282	Dundee .. ..	Dundee, and part of Liff, Benvie, and Invergowie.
294b	Kilry .. ..	Parts of Glenisla and Lintrathen.
324	Aberfeldy .. ..	Parts of Dull, Kenmore, and Logierait.
328b	Ardoch .. ..	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven .. ..	Parts of Auchtergaven and Logiealmond.
331	Balquhiddier .. ..	Balquhiddier, and part of Comrie.
344	Dowally .. ..	Part of Dunkeld & Dowally.
349	Dunkeld .. ..	Part of Dunkeld & Dowally.
355b	Foss .. ..	Parts of Blair-Athol and Dull.
361	Killin .. ..	Parts of Kenmore and Killin.
375	Logiealmond .. ..	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle .. ..	Meigle, and part of Coupar-Angus.
386b	Persie .. ..	Parts of Alyth, Blairgowrie, and Kilmichael.
387	Perth .. ..	Perth, and part of Kinnoull.
393b	Stanley .. ..	Parts of Auchtergaven. Kinclaven, and Redgorton.
394b	Strathfillan .. ..	Part of Killin.
394c	Tenandry .. ..	Parts of Blair Athol and Moulin.
402	Anstruther-Easter .. ..	Anstruther-Easter, and part of Kilrenny.
417	Crail .. ..	Part of Crail and May Island.
423	Dunbog .. ..	Dunbog, and part of Flisk.
425	Dumino .. ..	Dumino, and part of Crail.
442	Kirkcaldy and Abbotshall .. ..	Kirkcaldy, Abbotshall, and part of Kinghorn.
451b	Grangemouth .. ..	Parts of Bothkennar, Falkirk, and Polmont.
483	St Ninians .. ..	St Ninians, and part of Stirling.
496	Dumbarton .. ..	Dumbarton, and part of Cardross.
505	Ardnamurchan .. ..	(1) Parts of Ardnamurchan, and Arisaig and Moidart; (2) Remainder of Arisaig and Moidart.
506	Ballachulish, etc. .. ..	Parts of Kilmallie, and Ardgour.
509	Cumlodden and Minard .. ..	Parts of Glassary, and Glenaray.
513	Inveraray .. ..	Inveraray, and part of Glenaray.
515	Kilbrandon and Kilchattan .. ..	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc. .. ..	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie .. ..	Parts of Kilmallie, and Ardgour.
525	Lismore .. ..	Lismore and Appin, and part of Kilmallie.
526	Lochgillhead .. ..	Parts of Glassary and South Knapdale.
529	Muckairn .. ..	Parts of Ardchattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert .. ..	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow) .. ..	Part of Kilarrow, and Kilmeny.
543	Kilmeny .. ..	Part of Kilarrow and Kilmeny.
545	Kinlochspelve .. ..	Part of Pennygown and Torosay.
547	Portnahaven .. ..	Part of Kilchoman.
548	Salen .. ..	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory .. ..	Part of Kilninian and Kilmore.
550	Torosay .. ..	Part of Pennygown and Torosay.
556	Lochranza .. ..	Parts of Kilbride and Kilmore.
559b	Bridge of Weir .. ..	Parts of Houston and Killellan, and Kilbarchan.
572	Neilston .. ..	(1) Part of Neilston; (2) Remainder of Neilston and part of Abbey.
576	Ardrossan .. ..	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
584b	Crosshill .. ..	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine .. ..	Irvine, and part of Dundonald.
610b	Patna .. ..	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
626b	Calderhead .. ..	Parts of Cambusnethan and Shotts.
644	Glasgow .. ..	City of Glasgow, Gorbals, and parts of Barony, and Govan.

CONSTITUTION OF THE DISTRICTS—*continued*.

No.	Districts.	Component Parts (Parishes).
693	Liberton .. ..	Parts of Liberton and Inveresk.
698b	Stobhill .. ..	Parts of Borthwick, Cockpen, and Newbattle.
774a	Caddonfoot .. ..	Parts of Galashiels, Innerleithen, Selkirk, Stow, and Yarrow.
787b	Edgerston .. ..	Parts of Jedburgh, and Southdean.
813b	Brydekirk .. ..	Parts of Annan, Cummertrees, and Hoddum.
830	Holywood .. ..	Holywood, and part of Terregles.
853b	Wanlockhead .. ..	Part of Sanquhar.
857b	Bargrennan .. ..	Parts of Minnigaff (Kirkcudbright) and Penninghame (Wigtown).
862	Corsockbridge .. ..	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie ... ..	Part of Urr.
899	Stranraer .. ..	Stranraer, and parts of Inch, and Leswalt.

LIST of REGISTRATION DISTRICTS which include BURGHS, or TOWNS of 2000 Inhabitants and upwards, or parts thereof, bearing a different name from the District in which they are situated.

No.	Registration Districts.	Burghs.	Towns.

# METEOROLOGICAL REPORT

FOR THE MONTHS OF

JULY, AUGUST, SEPTEMBER.

1897.

DIAGRAM  
 SHOWING THE STATIONS  
 of the  
 SCOTTISH METEOROLOGICAL SOCIETY.  
 Reported to the Registrar General of Scotland.

NOTES ON THE NUMERICAL RETURNS OF SCOTTISH METEOROLOGY  
FOR THE QUARTER ENDING 30TH SEPTEMBER 1897.

By Dr BUCHAN, under the Direction of the Council of the Scottish Meteorological Society.

THESE returns are founded on the observations made, morning and evening, at 67 of the Stations of the Scottish Meteorological Society, and have been prepared from the Observers' separate schedules.

From the individual results for each station, the following collective results have been obtained, assuming them to have been equally well observed, and to represent the whole country :—

COLLECTED RETURNS FOR ALL THE ACCEPTED STATIONS OF THE SCOTTISH METEOROLOGICAL SOCIETY, HAVING A MEAN LATITUDE =  $56^{\circ} 33'$  N.; MEAN LONGITUDE =  $3^{\circ} 45'$  W.; AND MEAN ELEVATION = 279 Feet.

And when these results are compared with the averages of 1856-95, during the same months, they show the following characteristics and differences.

JULY 1897—

Mean Barometric Pressure, 29.941 inches ; greater than the average of 1856-95 by 0.066 inch.

Monthly Range, 1.005 inch ; greater by 0.097 inch.

Mean Temperature,  $58^{\circ} 2$  ; greater by  $1^{\circ} 1$ .

Mean Daily Range,  $16^{\circ} 8$  ; greater by  $1^{\circ} 9$ .

Mean of Black Bulb in Sun,  $103^{\circ} 9$  ; greater by  $11^{\circ} 5$ .

Do. at Night,  $45^{\circ} 3$  ; greater by  $0^{\circ} 6$ .

Mean Humidity, 80 ; less by 2.0.

Rain, Number of Days, 12 ; less by 3 days.

Rain, Depth in inches, 2.44 ; less by 0.73 inch.

Wind, Pressure on Square Foot, 1.83 lbs. ; greater by 0.41 lb.

Wind, Direction of, E. to W. as 6 to 13, and N. to S. as 5 to 6 ; in place of E. to W. as 5 to 11, and N. to S. as 5 to 7.

Hours of Sunshine, 238 ; greater by 39 hours.

Mean Amount of Cloud, 5.9 ; less by 0.7.

**AUGUST 1897—**

Mean Barometric Pressure, 29·686 inches; less than the average of 1856-95 by 0·165 inch.

Monthly Range, 1·021 inch; greater by 0·035 inch.

Mean Temperature, 58°·9; greater by 2°·3.

Mean Daily Range, 14°·8; greater by 0°·4.

Mean of Black Bulb in Sun, 100°·1; greater by 10°·1.

Do. at Night, 46°·7; greater by 2°·5.

Mean Humidity, 83; less by 0·9.

Rain, Number of Days, 19; greater by 3 days.

Rain, Depth in Inches, 4·59; greater by 0·96 inch.

Wind, Pressure on Square Foot, 1·61 lbs.; greater by 0·26 lb.

Wind, Direction of, E. to W. as 7 to 9; and N. to S. as 3 to 9; in place of E. to W. as 5 to 11, and N. to S. as 5 to 7.

Hours of Sunshine, 153; less by 43 hours.

Mean Amount of Cloud, 6·6; greater by 0·13.

**SEPTEMBER 1897—**

Mean Barometric Pressure, 29·882 inches; greater than the average of 1856-95 by 0·038 inch.

Monthly Range, 1·267 inch; greater by 0·102 inch.

Mean Temperature, 51°·0; less by 1°·8.

Mean Daily Range, 15°·3; greater by 1°·5.

Mean of Black Bulb in Sun, 90°·2; greater by 7°·2.

Do. at Night, 38°·5; less by 2°·3.

Mean Humidity, 85; less by 0°·6.

Rain, Number of Days, 18; greater by 2 days.

Rain, Depth in Inches, 3·46; less by 0·08 inch.

Wind, Pressure on Square Foot, 1·77 lbs.; greater 0°·14 lb.

Wind, Direction of, E. to W. as 3 to 13; and N. to S. as 7 to 6; in place of E. to W. as 5 to 11, and N. to S. as 5 to 8.

Hours of Sunshine, 118; less by 24 hours.

Mean Amount of Cloud, 6·0; less by 0·31.

The weather of JULY 1897 was thus characterised by a mean barometric pressure considerably above the average, with a monthly range also greatly above the average; a mean temperature, fully a degree above the average, with a mean range only twice exceeded during the past forty-two years, viz., in 1868 and 1875 when it was respectively 18°·2 and 17°·0; a remarkably low mean humidity; a mean rainfall a good deal under the average, and falling on three days fewer than the average.

The mean barometric excess was 0·026 inch at North Unst, which excess steadily increased southward till in Wigtonshire it reached 0·095 inch, and the excess was also a little higher at western than at eastern stations. This geographical disposition of the pressure favoured an increase of strong westerly wind; and, accordingly, west winds were three days in excess of the average, and the mean strength of the wind was greatly above the average.

The mean temperature was 58°·2, or 1°·1 above the average, but while the days were 2°·0 the nights were only 0°·1 above the average. Thus the high temperature of the month was occasioned by the higher temperature of the days brought about by the great dryness of the air and the stronger sunshine which prevailed. The high temperature was very unequally distributed over Scotland. Along the whole of the east coast temperature was markedly lower than elsewhere, being, indeed, at a few places slightly under the average; along the west, from Stornoway to the Mull of Galloway, it was fully a degree above the average; but in inland situations to the south of the Grampians, temperature was about two degrees above the average. The type of the weather was strongly anti-cyclonic on the 1st and 2nd, from the 9th to the 19th, and from the 22nd to the end of the month. No storms of wind occurred from the 7th to the 31st, and only at a few widely-separated stations storms occurred from the 2nd to the 6th. The absolutely highest temperature was 87°·0 on the 16th at Stronvar, and the lowest 32°·5 on the 8th at Lednathie.

The mean rainfall was 2·44 inches, or 23 per cent. under the average. It was above the average over the Outer Hebrides, except the northern half of the Lewis; Wester Ross-shire; and a patch of the counties of Inverness and Argyll marked off by a line drawn from Roshven by Fort-William, and Craigrannoch to Oban. The largest fall was 7·55 inches at Glencarron, which is 38 per cent. above the average of this station. The following amounts are also large:—6·67 inches at Lochbuie; 6·62 inches at Craigrannoch; and 6·52 inches at Fort-William.

In all other districts, the rainfall was less than the average, and over wide areas very greatly so. The greatest deficiency was at eastern stations from the Lothians northwards and over the south-west of the country, the general deficiency being from 50 to 80 per cent. Practically no rain fell on the 1st, from the 10th to the 19th, and on the 31st. The heaviest rains fell from the 3rd to the 8th, and from the 23rd to the 26th, and

during this latter period thunderstorms were frequent. The amount at Glencarron on the four days from the 3rd to the 6th was 4.21 inches.

#### AUGUST 1897—

Hence the weather of AUGUST 1897 was characterised by a mean barometric pressure singularly low, a lower since 1856 having only occurred in August 1860 and 1891, the monthly range being above the average; a mean temperature unusually high, with a mean daily range slightly in excess of the average; a mean humidity a little under the average; a mean rainfall much above the average, falling on three days more than the average; and a large excess of southerly winds.

The mean barometric pressure was 29.686 inches, the mean for August 1860 was 29.575 inches, and for 1891, 29.667 inches; these being the three lowest means since 1856. The least depression was 0.084 inch at North Uist, and the greatest 0.204 inch at Monach, becoming less on advancing southward till on the Solway it was 0.151 inch. It was very much greater in the west than in the east, being only 0.135 inch at Aberdeen, but at Monach in the west 0.204 inch. This much lower pressure in the west resulted in a five days' excess of south-easterly winds, which in their turn brought a high temperature and a remarkable distribution of the rainfall.

The mean temperature was 58° 9, or 2° 3 above the average, the days being 2° 5 and the nights 2° 1 above the average, the excess being thus nearly equally distributed between the days and the nights. This high temperature has only been exceeded in 1857 and 1893. Another phase of this high temperature was the remarkable equableness with which it was spread over the whole country, with the single difference that temperatures were everywhere lower at coast than at inland stations. The highest temperatures occurred from the 1st to the 12th, and from the 25th to the end of the month. The absolutely highest temperature was 85° 6 on the 3rd at Dumfries, and the lowest 35° 3 on the 22nd at Kingussie.

The mean rainfall was 4.59 inches, or 26 per cent. above the average. Its distribution over the country was very irregular. Owing to the extraordinary prevalence of south-easterly winds it was less than the average to the north of the Grampian Range, the general deficiency being about a third part of the average. At one or two places, on the coast from Aberdeen to Smeaton, it was slightly under the average; but over the rest of the country it exceeded the average, and over wide districts very greatly so. At Stronvar, the amount was 11.93 inches, which is 125 per cent. above the average. About double the average fell at Dalnaspidal, Lednathie, Ochertyre, Dumbarton, Paisley, Campbeltown, Glenlee, Drumlannig, and Corsewall. The heaviest rains occurred from the 4th to the 6th, 10th to the 16th, 20th and 21st, and the last four days of the month. Thunderstorms were unusually frequent, occurring chiefly on the first six days and the 11th. Except at western stations on the last three days of the month, storms of wind were absent.

#### SEPTEMBER 1897—

The weather of September 1897 was characterised by a mean barometric pressure a little above the average, and a monthly range greatly above it; a mean temperature nearly two degrees under the average, with a mean daily range very greatly in excess of the average; a mean humidity a little under the average; a mean rainfall nearly the average, falling on two days more than the average; and five days' excess of north-westerly winds.

The mean barometric pressure was 29.882 inches, or 0.038 inch above the average. In Shetland it was 0.024 inch under, but at Pinmore 0.060 inch above the average; at Peterhead the excess was 0.002 inch, but at Monach 0.044 inch. Hence pressure was much less in the north, as compared with the averages, than in the south, and in the east than in the west. Hence the five days' excess of north-westerly winds with the accompanying low temperature and dry state of the air.

The mean temperature was 51° 0, or 1° 8 under the average, the days showing a deficiency of 1° 0 and the nights 2° 5, the nights being thus relatively much colder than the days. The diminution of temperature was a little greater in the east and south, but otherwise it was remarkably equable over the whole country. Considering the generally rainy character of the weather of the month, the cold nights were of no small advantage to the cut grain in stook. The absolutely highest temperature was 78° 0 on the 13th at Ochertyre, and the lowest 26° 7 on the 8th at Kingussie.

The mean rainfall was 3.46 inches, the average being 3.54 inches. The distribution was, however, very irregular. It was above the average in the west generally, and in Shetland, Orkney, and Banffshire. The largest excesses were about a half more than the average, this being the excess at Kirkwall, Stornoway, Fort-William, Ardnamurchan, and Benquhat. In other districts of the country, the rainfall was less than the average, the amount collected over several wide districts being only half the average. Fine weather prevailed generally from the 7th to the 14th, but showers were frequent during the rest of the month. Storms of wind were of frequent occurrence from the 1st to the 5th and from the 21st to the 26th. The largest rainfall was 9.58 inches at Fort-William and the smallest 0.95 inch at Logie-Coldstone—these being respectively 50 per cent. above, and 68 per cent. under the averages.

## REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

### INSTRUCTIONS TO REGISTRARS.

“If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance.”

*The Figures refer to the Numbers of the Districts in the preceding Tables.*

#### I. NORTHERN DIVISION.

##### 1. SHETLAND.

5 (2). BURRA ISLES.—No deaths registered, but one man belonging to this district was drowned in Lerwick Harbour, and a female died in Edinburgh Infirmary.

75 (1). LOCHBROOM.—Of the six deaths in September, two were of fishermen who were drowned by the upsetting of their boat.

81. ROSSKEEN.—Of the twelve deaths registered, two were of persons aged respectively 90 years.

##### 6. INVERNESS.

##### *Mainland.*

#### II. NORTH-WESTERN DIVISION.

##### 5. ROSS AND CROMARTY.

##### *Mainland.*

68. KILLEARNAN.—Hooping-Cough prevalent among children, proving fatal in two cases.

92b. CANNICH.—Of the three deaths, two were of widows aged respectively 86 and 91 years.

99 (2). LOCHABER.—Deaths above the average. Two navvies were found drowned in the Caledonian Canal, and one died of Pneumonia.

103. KIRKHILL.—Hooping-Cough appeared in one district, and caused two deaths.

*Insular.*

117 (1). NORTH SNIZORT.—The four deaths registered were of persons aged respectively 76, 78, 84, and 86 years.

## III. NORTH-EASTERN DIVISION.

## 8. ELGIN (OR MORAY).

127. BIRNIE.—Measles prevalent during early weeks of July, and in consequence the public school was closed for a time. One of the three deaths registered was caused by Measles.

139. KNOCKANDO.—Scarlet Fever prevalent, and two deaths in consequence.

## 10. ABERDEEN.

172. AUCHINDOIR.—Four of the seven deaths were of persons aged respectively 92, 95, 96, and 97 years. A male, aged 63 years, committed suicide by Hanging.

182. COULL.—Of the three deaths, two occurred in one family, and were caused by Diphtheria. The other was of a visitor in the parish, who was aged 91 years.

186. CULSALMOND.—A few cases of Influenza occurred, and also one of Diphtheria, but none of them were fatal. The only death recorded was of a woman aged 73 years.

202. HUNTLY.—Five deaths were caused by Diphtheria, and three by Scarlet Fever. Three of the deaths were of persons from neighbouring parishes who died in the Cottage Hospital.

215. LESLIE.—Of the seven births registered, four are illegitimate.

## 11. KINCARDINE.

253. BENHOLM.—Whooping-Cough prevalent amongst children, and caused three of the four deaths in September.

263. LAURENCEKIRK.—One of the seven deaths was that of a lady who was killed on the railway by falling from a passing train.

## IV. EAST-MIDLAND DIVISION.

## 12. FORFAR.

315. OATHLAW.—Of the two deaths registered,

one was that of a male who was killed by falling from a cart on the harvest-field.

320. STRACATHRO.—Of the three births, two are illegitimate.

## 13. PERTH.

325. ABERFOYLE.—An epidemic of Measles, followed by Scarlet Fever, prevailed in the district, and necessitated the closing of the public school. Two of the six deaths were from Scarlet Fever, one from Measles, and one from Drowning.

330. AUCHTERGAVEN.—The general health has been remarkably good. Six deaths were recorded, and of these two were of persons aged respectively 82 and 87 years.

334. BLAIR-ATHOL.—Of the six deaths registered, four were of persons aged respectively 74, 75, 83, and 88 years.

373. LITTLE DUNKELD.—Eight of the fourteen deaths took place in the Perth District Asylum, all belonging to other parishes. Eleven were of persons whose respective ages ranged from 64 to over 90 years.

380. METHVEN.—Three of the six deaths are of young children from Whooping-Cough.

383. MONZIEVAIRD AND STROWAN.—An epidemic of Measles, followed by Whooping-Cough, occurred in July and August, and caused four deaths.

385. MUCKART.—The only death was that of a female aged 81 years.

393b. STANLEY.—The ages of five of the seven persons whose deaths were registered were 70, 74, 82, 83, and 85 years respectively. An accidental fire in a dwelling-house resulted in one old man being burned to death.

## 14. FIFE.

401. ABERDOUR.—Only one marriage this year. Deaths very much below the average.

420. CUPAR.—Deaths below the average, being for the quarter twenty-six, of which nine occurred in the Fife and Kinross Asylum.

426. DYSART.—Three of the forty-nine deaths were caused by Whooping-Cough.

427. ELIE.—Of the nine deaths, one was that of a medical practitioner, who was accidentally drowned while bathing. Four were of summer visitors.

432. INVERKEITHING.—An epidemic of Measles occurred during the month of July, and three deaths resulted therefrom. Two deaths were caused by Drowning, and one by Hanging (suicidal).

434. KENNOWAX.—Of the nine deaths recorded, two were of males aged 72 and 75 years, and two of females aged 77 and 84 years respectively.

## 15. KINROSS.

462. KINROSS.—Whooping-Cough very prevalent during most of the quarter, and caused three of the seven deaths recorded.

## 16. CLACKMANNAN.

467. DOLLAR.—Of the twelve deaths, five were of persons aged respectively 67, 72, 78, 86, and 88 years.

## V. WEST-MIDLAND DIVISION.

## 17. STIRLING.

473. BOTHKENNAR.—Deaths considerably over the average. Two of them were accidental.

## 18. DUMBARTON.

497. KILMARONOCK.—One of the four deaths was that of a man 94 years of age, who had come to the parish on a visit.

## 19. ARGYLL.

*Mainland.*

510. DUNOON.—Forty-four deaths were registered during the quarter, and of these sixteen were of visitors.

519. KILLEAN AND KILCHENZIE.—The returns show an increase in the number of illegitimate children, one-half of the births being of that class.

531 (1). SADDELL.—The two female deaths were of visitors to the district.

## 20. BUTE.

557. NORTH BUTE.—Of the twelve deaths, three were caused by Drowning.

## VI. SOUTH-WESTERN DIVISION.

## 21. RENFREW.

559b. BRIDGE OF WEIR.—One of the two deaths was caused by a railway accident.

561. EAGLESHAM.—Deaths above the average. Every year the village is becoming more popular as a health resort, and the increase of deaths is due to the number of persons, chiefly from Glasgow, who come in delicate health.

566. INCHINNAN.—Several cases of Scarlet Fever occurred during September, but in no case was the result fatal.

## 22. Ayr.

594. GIRVAN.—Of the fourteen deaths, four were of visitors, and two were from Accidental Drowning.

607. MUIRKIRK.—One-third of the deaths were of persons at the respective ages of 71, 73, 74, 86, and 101 years.

## 23. LANARK.

652 (1). WESTERN DISTRICT OF OLD MONKLAND.—Deaths considerably over the average, but no epidemics. A case of triplet births occurred during August.

## VII. SOUTH-EASTERN DIVISION.

## 24. LINLITHGOW.

665 (1). DALMENY.—Hooping-Cough somewhat prevalent, and deaths (mostly of children) much above the average.

667. KIRKLISTON.—Cases of Measles and Scarlet Fever have occurred, but none of them fatal.

## 26. HADDINGTON.

705. DIRLETON.—Deaths slightly above the average, for which no proper cause can be assigned. Two of the deaths were due to "old age."

## 27. BERWICK.

728. BUNKLE AND PRESTON.—The four deaths were all of females, who were aged respectively 93, 88, 76, and 71 years.

730. CHIRNSIDE.—Of the nine deaths, four were of persons aged 88, 85, 80, and 75 years respectively.

749. LEDGERWOOD.—One death from Typhoid Fever. Hooping-Cough prevalent, and several cases of Measles.

752. MORDINGTON.—A case of Measles occurred in July, from which, however, the patient recovered.

## 28. PEBBLES.

762 (1). INNERLEITHEN.—A number of cases of Scarlet Fever occurred, but all were of a mild type.

762 (2). WALKERBURN.—Hooping-Cough prevalent during July and August.

## VIII. SOUTHERN DIVISION.

## 30. ROXBURGH.

786. CRAILING.—An epidemic of Measles prevailed during July and August. Several cases of Scarlet Fever also occurred, from which one death resulted. At least two cases of Diphtheria

occurred in the village of Nisbet, one of which proved fatal.

807. SPROUSTON. — Measles prevalent during July and August.

31. DUMFRIES.

812. ANNAN. — Of the eighteen deaths recorded, three were caused by Accidental Drowning.

823. DURRISDEER. — One of the two deaths registered is that of a vagrant who died in a railway carriage.

840. LOCHMABEN. — Births very much under the average, but none illegitimate.

32. KIRKCUDBRIGHT.

863. CROSSMICHAEL. — The illegitimate births registered in August were of twins, whose deaths were registered at the same time.

33. WIGTOWN.

898. STONEYKIRK. — One of the deaths was that of a person whose body was found on the seashore.

# INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.\**

Abbey, . . . . .	559	Ardnamurchan, . . . . .	505	Barvas, . . . . .	86	Brydekirk, . . . . .	813	Ceres, . . . . .	415
Abbey St Bath- aus, . . . . .	726	Ardoch, . . . . .	328	Bathgate, . . . . .	662	Buchanan, . . . . .	474	Channelkirk, . . . . .	729

				Brodick, . . . . .	553	Cavers, . . . . .	785		
				Broughton, . . . . .	758	Cawdor, . . . . .	122		

\* The actual number of Districts is 1064—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 6 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.

Crieff, . . . . .	342	Dundonald, . . . . .	590	Fogo, . . . . .	740	Haddington, . . . . .	709	Kilbirnie, . . . . .	596

# QUARTERLY RETURN

OF THE

## BIRTHS, DEATHS, AND MARRIAGES

REGISTERED IN THE

DIVISIONS, COUNTIES, AND DISTRICTS

OF

### SCOTLAND.

---

QUARTER ENDING 31st DECEMBER 1897.

---

PUBLISHED BY AUTHORITY OF THE REGISTRAR-GENERAL.

CLXXII.

EDINBURGH:

PRINTED FOR HER MAJESTY'S STATIONERY OFFICE,

By NEILL & CO., OLD FISHMARKET CLOSE,

And Sold by

JOHN MENZIES & Co., 12 HANOVER STREET, EDINBURGH; and

90 WEST NILE STREET, GLASGOW.

---

1898.

# REPORT.

DURING the quarter ending 31st December 1897, there were registered in Scotland 31,331 Births, 18,899 Deaths, and 7,917 Marriages. Reference to Table III. shows that while the Births and Deaths are below, the Marriages are above the average for the quarter during the previous ten years.

TABLE I.—Births, Deaths, and Marriages in Scotland, its Groups of Districts and Divisions, during the Quarter ending 31st December 1897, with their Proportion to the Population, also the Illegitimate Births, and their Proportion to the Total Births.

## BIRTHS.

31,331 Births were registered in Scotland during the quarter, being at the annual rate of 295 for every ten thousand of estimated population, or 2·95 per cent.

The Birth-rate in the Principal Town Districts for every ten thousand persons was 310; in the Large Town Districts, 307; in the Small Town Districts, 298; in the Mainland-Rural Districts, 265; and in the Insular-Rural Districts, 215.

In Leith the Birth-rate for every ten thousand persons was 334 ; in Glasgow, 322 ; in Greenock, 321 ; in Aberdeen, 317 ; in Dundee, and in Paisley, 294 ; in Perth, 269 ; and in Edinburgh, 264.

Of the 31,331 Births, 2138, or 6·8 per cent., were illegitimate. In the Insular-Rural Districts, 4·4 per cent. of the Births were illegitimate ; in the Large Town Districts, 5·7 ; in the Small Town Districts, 6·3 ; in the Principal Town Districts, 6·6 ; and in the Mainland-Rural Districts, 8·9.

A comparative statement of the rate of illegitimacy in the Divisions and Counties of Scotland will be found in Tables I. and II. Table I. shows the rate of illegitimacy to have been highest in the North-Eastern and Southern Divisions ; while from Table II. it will be seen that in nine of the Counties the rate of illegitimacy was over 10 per cent. The highest rate in any county occurred in Wigtown, viz., 16·1 per cent. ; and the lowest equally in Ross and Cromarty, and Kinross, viz., 3·3 per cent.

Of the 31,331 Births, 15,896 were of males, and 15,435 of females, being in the proportion of 103 males for every 100 females. 10,624 Births were registered during October, or at the rate of 343 daily ; 10,259 during November, or 342 daily ; and 10,448 during December, or 337 daily.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland, during the Quarter ending 31st December 1897.

## DEATHS.

The Deaths of 18,899 persons were registered in Scotland during the quarter, being at the annual rate of 178 for every ten thousand of estimated population, or 1·78 per cent.

The number of Deaths registered in England and Wales during the quarter was 132,696, being at the annual rate of 170 for every ten thousand of estimated population.

The Death-rate in the Principal Town Districts for every ten thousand of estimated population was 198 ; in the Large Town Districts, 188 ; in the

Small Town Districts, 164; in the Mainland-Rural Districts, 152; and in the Insular-Rural Districts, 140.

For every ten thousand of estimated population in Greenock, the Death-rate was 248 ; in Glasgow, 208 ; in Dundee, 207 ; in Edinburgh, 195 ; in Perth, 186 ; in Aberdeen, 184 ; in Paisley, 183 ; and in Leith, 161.

Of the 18,899 Deaths, 9500 were of males, and 9399 of females. 5862 Deaths were registered during October, or at the rate of 189 daily ; 6063 during November, or 202 daily ; and 6974 during December, or 225 daily.

### MARRIAGES.

7917 Marriages were registered in Scotland during the quarter, being at the rate of 74 for every ten thousand of estimated population, or 0·74 per cent.

In the Principal Town Districts the annual Marriage rate for every ten thousand of estimated population was 88 ; in the Large Town Districts the rate was 67 ; in the Small Town Districts, 66 ; in the Mainland-Rural Districts, 65 ; and in the Insular-Rural Districts, 47.

The annual Marriage rate in Edinburgh for every ten thousand of estimated population was 103 ; in Perth, 95 ; in Glasgow, and in Aberdeen, 90 ; in Leith, 87 ; in Dundee, 80 ; in Paisley, 75 ; and in Greenock, 70.

1876 Marriages were registered during October, or 61 daily ; 2234 during November, or 74 daily ; and 3807 during December, or 123 daily.

### INCREASE OF POPULATION AND EMIGRATION.

The Births for the quarter having numbered 31,331, and the Deaths 18,899, the natural increase of the population, not allowing for changes caused by emigration or immigration, was 12,432. With regard to immigrants no reliable estimate can be formed, but from Returns furnished by the Board of Trade it is found that the number of emigrants amounted to 45,791, of whom 22,369 were English, 3480 Scottish, 5224 Irish, 13,246 Foreigners, and 1472 whose nationality was not distinguished, but of whom 115 may be assumed to be Scottish. If then 3480+115, the number of Scottish emigrants, be deducted from the number representing the excess of Births over Deaths, 8837 remains as the probable increase of the population for the quarter.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 31st December 1897.

## DISEASES IN THE ABOVE PRINCIPAL TOWNS.

About 36 per cent. of the population of Scotland being resident in these towns, it may be fairly assumed that diseases prevailing in them will be found to a corresponding extent throughout the country.

The total deaths in these towns amounted to 2498 in October, 2546 in November, and 2812 in December; and of these 95 in October, 105 in November, and 111 in December were not specified or ill-defined.

Miasmatic Diseases caused 220 deaths in October, or 1·97 per thousand of estimated population; 233 in November, or 1·83 per thousand; and 269 in December, or 2·04 per thousand.

Measles caused 24 deaths in October, or 0·18 per thousand of estimated population; 50 in November, or 0·39 per thousand; and 59 in December, or 0·45 per thousand. Scarlet Fever caused 47 deaths in October, or 0·36 per thousand; 54 in November, or 0·42; and 43 in December, or 0·33. To Hooping-Cough were attributed 80 deaths in October, or 0·61 per thousand; 69 in November, or 0·54; and 116 in December, or 0·88. From Diphtheria there resulted 20 deaths in October, or 0·15 per thousand; 24 in November, or 0·19; and 18 in December, or 0·14. Fevers were the cause of 38 deaths in October, or 0·29 per thousand; 22 in November, or 0·17; and 23 in December, or 0·17.

Diarrhœa and Dysentery caused 76 deaths in October, or 0·58 per thousand of estimated population; 57 in November, or 0·45 per thousand; and 31 in December, or 0·24 per thousand.

Venereal Diseases caused 17 deaths in October, 17 in November, and 8 in December.

From Intemperance there resulted 7 deaths in October, 10 in November, and 5 in December.

Constitutional Diseases caused 434 deaths in October, 446 in November, and 471 in December; and of these 97 in October, 97 in November, and 111 in December were from Cancer; and 223, or 1·69 per thousand of estimated population, in October, 226, or 1·77 per thousand in November; and 238, or 1·81 per thousand in December from Phthisis.

Developmental Diseases were the cause of 146 deaths in October, of 182 in November, and of 215 in December.

From Diseases of the Nervous System there resulted 284 deaths in October, 258 in November, and 304 in December.

To Diseases of the Respiratory System were ascribed 596 deaths in October, 620 in November, and 677 in December; and of these, 9 in October, 17 in November, and 6 in December, were from Croup; 230 in October, 289 in November, and 323 in December from Bronchitis; and 283 in October, 241 in November, and 277 in December from Pneumonia.

To Diseases of the Digestive System were attributed 181 deaths in October, 174 in November, and 183 in December.

Diseases of the Urinary System caused 63 deaths in October, 74 in November, and 81 in December.

Parturition, or conditions in connection therewith (including Puerperal Fever), caused 19 deaths in October, 16 in November, and 15 in December.

To Violent Causes were ascribed 94 deaths in October, 99 in November, and 120 in December.

## WEATHER.

The following remarks on the weather of the quarter are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports :—

October was characterised by a very high mean barometer, but accompanied with a monthly range a little under the average; a mean temperature a good deal above the average, with a mean daily range much above the average; a mean humidity slightly under the average; a mean rainfall greatly under the average, falling on four days fewer than usual in October; a considerable excess of southerly winds, with a force much under the average.

November was characterised by an unusually high mean barometer, with a high monthly range; a mean temperature higher than any hitherto recorded by the Society for November, with a mean daily range smaller than any hitherto recorded for the same month; a mean humidity above the average, but with a

mean rainfall greatly under the average, falling on one day more than the average; and an unusual excess of winds from E., S.E., S., and S.W.

December was characterised by a very low mean barometer, accompanied by an unusually large monthly range; a mean temperature a degree above the average, with a mean daily range half a degree above the average; the average humidity; a rainfall above the average, falling on two days more than the average; and a marked excess of southerly winds.

The mean height of the barometric column, reduced to sea-level and 32° Fahr., was 30·078 inches in October, 30·079 inches in November, and 29·695 inches in December. The mean temperature for the quarter was 43°·7, being 2°·2 above the average mean temperature for the quarter during the last ten years. The mean temperature during October was 48°·0, during November 44°·6, and during December 38°·6. The absolute highest temperature was 69°·0 in October, 63°·6 in November, and 59°·0 in December; the absolute lowest temperature being 19°·5 in October, 11°·6 in November, and 13°·0 in December. Rain fell on 13 days in October, on 17 in November, and on 19 in December; the mean depth being 2·47 inches in October, 3·24 inches in November, and 5°·37 inches in December. Winds with an easterly point blew on 9 days in October, on 9 days in November, and on 7 days in December. Winds with a westerly point blew on 13 days in October, on 14 days in November, and on 16 days in December. Northerly winds blew on 7 days in October, on 6 days in November, and on 7 days in December. Southerly winds blew on 11 days in October, on 12 days in November, and on 15 days in December.

[illegible]

Districts containing Parliamentary and Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Towns of 2000 Inhabitants and upwards are printed in small capitals, thus—CARLUKE.  
*N.B.*—An asterisk \* is prefixed to those Districts which have the "parishes in which they are situated, or are comprised of more, or parts of more than one Parish, and the component parts of these parishes" as found on page 45.  
 A dagger † is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.  
 ‡ Returns not received. The numbers given are estimated from those for the corresponding quarter of the last three years.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

OCTOBER, NOVEMBER, DECEMBER.

1897.

NOTES ON THE NUMERICAL RETURNS OF SCOTTISH METEOROLOGY  
FOR THE QUARTER ENDING 31st DECEMBER 1897.

By Dr BUCHAN, under the Direction of the Council of the Scottish Meteorological Society.

THESE returns are founded on the observations made, morning and evening, at 67 of the Stations of the Scottish Meteorological Society, and have been prepared from the Observers' separate schedules.

From the individual results for each station, the following collective results have been obtained, assuming them to have been equally well observed, and to represent the whole country :—

COLLECTED RETURNS FOR ALL THE ACCEPTED STATIONS OF THE SCOTTISH METEOROLOGICAL SOCIETY, HAVING A MEAN LATITUDE = 56° 33' N.; MEAN LONGITUDE = 3° 45' W.; AND MEAN ELEVATION = 279 Feet.

And when these results are compared with the averages of 1856-95, during the same months, they show the following characteristics and differences.

OCTOBER 1897—

Mean Barometric Pressure, 30.078 inches; greater than the average of 1856-95 by 0.272 inch.

Monthly Range, 1.370 inch; less by 0.110 inch.

Mean Temperature, 48° 0; greater by 1° 6.

Mean Daily Range, 14° 4; greater by 2° 5.

Mean of Black Bulb in Sun, 76° 4; greater by 7° 4.

Do. at Night, 35° 6; greater by 0° 4.

Mean Humidity, 87; less by 0.5.

Rain, Number of Days, 13; less by 4 days.

Rain, Depth in Inches, 2.47; less by 1.58 inch.

Wind, Pressure on Square Foot, 1.78 lbs.; less by 0.16 lb.

Wind, Direction of, E. to W. as 7 to 9, and N. to S. as 5 to 7; in place of E. to

W. as 5 to 10, and N. to S. as 5 to 7.

Hours of Sunshine, 103; less by 4 hours.

Mean Amount of Cloud, 5.9; less by 0.50.

## NOVEMBER 1897—

Mean Barometric Pressure, 30·079 inches ; greater than the average of 1856-95 by 0·258 inch.

Monthly Range, 1·735 inch ; greater by 0·194 inch.

Mean Temperature, 44°·6 ; greater by 4°·0.

Mean Daily Range, 9°·4 ; less by 1°·0.

Mean of Black Bulb in Sun, 58°·4 ; greater by 2°·4.

Do. at Night, 36°·0 ; greater by 5°·3.

Mean Humidity, 88 ; being the average.

Rain, Number of Days, 17 ; greater by 1 day.

Rain, Depth in Inches, 3·24 ; less by 0·42 inch.

Wind, Pressure on Square Foot, 2·14 lbs. ; greater by 0·28 lb.

Wind, Direction of, E. to W. as 7 to 10 ; and N. to S. as 4 to 8 ; in place of E. to W. as 5 to 10, and N. to S. as 6 to 7.

Hours of Sunshine, 38 ; less by 34 hours.

Mean Amount of Cloud, 7·5 ; greater by 1·03.

## DECEMBER 1897—

Mean Barometric Pressure, 29·695 inches ; less than the average of 1856-95 by 0·096 inch.

Monthly Range, 2·009 inches ; greater by 0·444 inch.

Mean Temperature, 38°·6 ; greater by 0°·8.

Mean Daily Range, 10°·6 ; greater by 1°·0.

Mean of Black Bulb in Sun, 50°·1 ; greater by 2°·4.

Do. at Night, 28°·1 ; less by 0°·3.

Mean Humidity, 87 ; less by 1°·0.

Rain, Number of Days, 19 ; greater by 3 days.

Rain, Depth in Inches, 5·37 ; greater by 1·40 inch.

Wind, Pressure of Square Foot, 2·12 lbs. ; greater 0°·13 lb.

Wind, Direction of, E. to W. as 5 to 11 ; and N. to S. as 5 to 10 ; in place of E. to W. as 4 to 12, and N. to S. as 5 to 8.

Hours of Sunshine, 35 ; less by 21 hours.

Mean Amount of Cloud, 6·6 ; greater by 0·1.

## OCTOBER 1897—

The weather of OCTOBER 1897 was thus characterised by an extraordinary high mean barometric pressure with a monthly range a little under the average ; a mean temperature, considerably above the average, with an unprecedentedly large mean daily range ; a mean humidity slightly under the average ; a small mean rainfall, falling on four days fewer than the average, and an excess of southerly winds and calms.

The mean barometric pressure was 30·078 inches, being 0·272 inch above the average of the month, and absolutely the highest mean hitherto recorded by the Society's observers for October. This large excess of barometric pressure was distributed over all parts of Scotland and outlying islands with singular uniformity as regards the amount. The high barometers occurred during the anti-cyclones which prevailed in the first week, and subsequent to the 19th.

The mean temperature was 48°·0, or 1°·6 above the average, the days being 2°·8 and the nights 0°·3 above their averages. Hence the high temperature was due to the greater warmth of the days occasioned by the unusually clear skies and strong sunshine which prevailed. The distribution of this excess of temperature over the country was remarkably uniform, with the single exception that at stations near the east coast it was a little less than at places near the west coast owing to westerly winds being under the average. The absolutely highest temperature was 69°·0 at Drumlannrig on the 1st, and the lowest 19°·5 at Castle Craig on the 14th.

The mean rainfall was 2·47 inches, or 39 per cent. short of the average ; falling only on thirteen days instead of seventeen days, the average. Its distribution over Scotland discloses the very rare occurrence of being under the average at all stations. At a few scattered places in Shetland, Orkney, Caithness, Sutherland, and the Merse, the deficiency did not exceed 10 per cent. ; but over large areas, in all parts, less than half the average rainfall was collected. The wettest portion of the month was from the 11th to the 17th, which was also the stormiest and coldest period of the month. Thereafter anti-cyclonic weather again set in accompanied with clear skies, strong sunshine, and little or no rain for the rest of the month.

## NOVEMBER 1897—

Hence the weather of NOVEMBER 1897 was characterised by a very high barometric pressure, with a monthly range considerably above the average ; a mean temperature, high beyond all precedent, with a mean daily range lower than has occurred since 1857 ; an average mean humidity ; a mean rainfall a good deal less than the

average, and falling on one day more than the average; and a three days' excess of south-easterly winds.

The mean barometric pressure was 30·079 inches, or 0·258 inch above the average. It was thus all but identical with the pressure of the previous month, the excess being, however, rather larger at southern than at northern stations, and slightly greater in the east than in the west. Down to the 11th the type of the weather was anti-cyclonic; and also from the 19th to the 26th. A remarkably sudden fall and rise of the barometer occurred on the 28th to the 29th, which was accompanied with a great and wide-spread storm that will be long remembered from its disastrous effects both on land and sea.

The mean temperature was 44°·6, or 4°·0 above the average, the days being 3°·5 and the nights 4°·5 above the average, thus forming a striking contrast in this respect, to the weather of October. This is the highest mean temperature yet recorded for November. The greatest excess occurred as usual in strictly inland situations where, in several places, it exceeded 5°·0, whereas in Shetland mean temperatures were only a degree above the average. The absolutely highest temperature was 63°·6 on the 1st at Lairg, and the lowest 11°·6 on the 16th at Braemar.

During the months of October and November, when the type of weather was generally anti-cyclonic, the temperature at the two Ben Nevis observatories showed striking differences. Thus, while at Fort-William, the excess of the mean temperature was 1°·4 in October, and 3°·7 in November, at the top of the mountain, it was respectively 5°·0, and 5°·6 above the averages.

The mean rainfall was 3·24 inches, or 15 per cent. under the average. At all stations, except Stornoway, the rainfall was less than the average, the manner of its distribution over the country thus closely resembling that of the previous month. The rainfall was light or *nil* from the 1st to the 11th, and 18th to 22nd, the greater part of the rain falling from the 12th to the 17th, and the last six days of the month. The great storm of the 28th to the 29th was experienced in all parts of the country; the storm of the 18th to the 19th in the Hebrides, Sutherland, Caithness, Orkney, and Shetland; and the storm of the 13th to the 14th was less widely felt.

Hence the weather of December 1897 was characterised by a low mean barometric pressure, accompanied with a very large monthly range; a mean temperature nearly a degree above the average, with a very large mean daily range; a humidity 10 per cent. less than the average; a rainfall much above the average, and falling on three days more than the average; and three days' excess of southerly winds.

The mean barometric pressure was 29·695 inches, or 0·096 inch less than the average. The diminution of pressure was much greater in the west and south than in the north and east. Thus, while it was 0·150 inch in the Hebrides, and 0·123 inch in the south of Ayrshire, it was only 0·040 inch at North Uist, and 0·090 inch at Peterhead. This arrangement of the barometric pressure resulted in an excessive prevalence of southerly winds.

The mean temperature was 38°·6, or 0°·8 above the average, the days being 1°·3, but the nights 0°·3 above the averages. The distribution of temperature was singularly unequal. In the space enclosed within a line drawn through the Minch, Gairloch, Ballachulish, Kingussie, and the mouth of the Spey, the mean temperature was under the average, the deficiency being 1°·9 at Lairg, 1°·7 at Nairn, and 1°·0 at Fort-William, Fort-Augustus, Inverness, Dunrobin, and Gordon Castle. In every other part of Scotland it was above the average, the greatest excess being fully 2° in Shetland and Orkney; and to the south of the Forth and Clyde where it was from a degree to a degree and a half in excess of the average. The area of low temperature was practically brought about by the very low temperatures which prevailed in that part of Scotland during the well-marked anti-cyclone from the 18th to the 24th. During these days the mean temperature at Nairn and Lairg was only 24°·5; whereas outside this area it was 35°·0 at Aberdeen, and 36°·6 at Stornoway. The absolutely highest temperature was 59°·0 at Stobo on the 1st, and the lowest 13°·0 at the same place on the 20th.

The mean rainfall was 5·37 inches, or 35 per cent. above the average. Its distribution was extremely irregular. It was under the average in the southern division of Orkney, in the counties of Caithness, Sutherland, Ross, Aberdeen, and Midlothian; but in other places it was above the average. At Lairg, the deficiency was 43 per cent., but at other stations it was small. On the other hand, over great breadths the excess exceeded a half more than the average of December; but on Speyside and the shores of the Solway it was fully double the average. Generally speaking the excess was greatest in inland situations. Very little rain fell from the 16th to the 25th. The heaviest falls were from the 5th to the 10th, and from the 26th to the 30th. Snow and hail were of frequent occurrence on the first eight days of the month. Thunderstorms and auroras were rather frequent; and wide-spread storms prevailed, except from the 1st to the 4th, 10th to 12th, and 18th to 24th.

## REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

### INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

*The Figures refer to the Numbers of the Districts in the preceding Tables.*

#### I. NORTHERN DIVISION.

##### 1. SHETLAND.

5 (2). BURRA ISLES. — Marriage Registers blank, the contracting parties preferring to have the ceremony performed in town.

11. UNST. — Typhoid and Measles prevalent, the latter disease proving fatal in two cases.

##### 2. ORKNEY.

20. HOY AND GRÆMSAY. — Of the three deaths registered, two were of persons over 80 years of age, the other being aged 60 years.

##### 3. CAITHNESS.

36. DUNNET. — Of the four deaths, two were of widows aged respectively 94 and 79 years.

43. WICK. — Owing to an epidemic of Measles, a high death-rate occurred among children.

##### 4. SUTHERLAND.

44 (2). STOEER. — A widow died at the age of 107 years.

53. LAIRC. — One of the six deaths was that of a male aged 95 years.

#### II. NORTH-WESTERN DIVISION.

##### 5. ROSS AND CROMARTY.

##### *Mainland.*

75 (1). LOCHBROOM. — The birth and death-rates for years past show that the population is fast decreasing.

##### *Insular.*

89. UIG. — Two cases of Typhoid Fever occurred, one of which proved fatal.

6. INVERNESS:

*Mainland.*

90a. ABERNETHY AND KINCARDINE.—Of the nine deaths, one was that of a child aged 5 months. The ages of the others ranged from 64 to 93 years.

92a (1). BOLESKINE.—Owing to the additional population at Foyers, in connection with the Aluminium Works, there is an increase of births and marriages for the past year.

95. DAVIOT AND DUNLIGHTY.—Hooping-cough prevalent in a part of the parish, but no deaths therefrom. Of the four deaths recorded, one was of a person aged 93 years.

99 (2). LOCHABER.—Deaths above the average. One was that of a navy from exposure to cold, his body being found on the public road about a mile from Spean Bridge.

*Insular.*

111 (1). NORTH HARRIS.—A case of Typhoid Fever occurred in the village of Tarbert in the month of October, but the disease did not spread.

113. NORTH UIST.—One of the deaths recorded during the quarter was of a person 107 years of age.

117 (1). NORTH SNIZORT.—One of the three deaths in December was caused by Drowning.

III. NORTH-EASTERN DIVISION.

9. BANFF.

155b. GLENRINNES.—Death-rate for the year abnormally low. The ages of the three persons whose deaths were recorded were respectively 77, 80, and 86 years.

10. ABERDEEN.

173. AUCHTERLESS.—One of the two deaths was that of a female 77 years of age.

183 (1). BRAEMAR.—Of the twelve deaths registered during the year, two were of males, and ten of females. Two were of persons over 70 years of age, four were over 80, and one was over 90 years. The principal cause of death was Senile Decay. One, however, resulted from a Bicycle Accident.

194. FORGUE.—No marriage registered during the year. Parties belonging to the district seem to prefer to have the ceremony performed in the neighbouring town of Huntly.

197. FYVIE.—Of the ten deaths, four were of persons aged respectively 78, 81, 88, and 98 years.

201. GLENMUICK, TULLICH, AND GLENGAIRN.—Of the ten deaths registered, the eldest was aged 95 years, and the youngest 3 months.

203. INSCH.—Deaths much above the average. Scarlet Fever was prevalent, and one of the deaths is from that cause. Weather has been wet and changeable, with very little frost or snow.

238. SKENE.—Of the six deaths registered, four were of persons aged respectively 72, 77, 77, and 81 years.

243. TARVES.—Of the thirty-four deaths registered during the year, eight were of persons between 70 and 80 years of age, and five were over 80.

11. KINCARDINE.

258 (1). FETTERESSO.—Illegitimacy unusually high in consequence of a number of cases from the Combination Poorhouse. The death-rate is also higher than usual from the same cause.

261. GLENBERVIE.—The only death registered was caused by Scarlatina, an outbreak of which occurred in Drumlithie.

IV. EAST-MIDLAND DIVISION.

12. FORFAR.

280. CRAIG.—Of the eight deaths registered, one was that of a widow belonging to the village of Ferryden, who died at the age of 100 years.

301. LIFF, BENVIE, AND INVERGOWRIE.—Of the seventy-three deaths registered during the year, fifty occurred in Westgreen Lunatic Asylum.

314. NEWTYLE.—Deaths below the average. One was that of a centenarian, and of the three recorded, the average age of each person was 86.6 years.

13. PERTH.

330. AUCHTERGAVEN.—Of the three deaths for the quarter, two were of males aged respectively 97 and 83 years, and of the nineteen registered during the year ten were of persons 70 years of age and upwards.

349. DUNKELD.—Marriages are mostly celebrated in Perth, although the proclamations are made in this parish.

373. LITTLE DUNKELD.—Of the twelve deaths, seven took place in the Perth District Asylum, Murthly, and were of persons belonging to other parishes.

385. MUCKART.—One of the two deaths was caused by burning.

393b. STANLEY.—Four of the eight persons whose deaths were registered were aged 71, 78, 82, and 85 years respectively. One death was caused by Drowning.

14. FIFE.

401. ABERDOUR.—Of the eight deaths, three were of persons aged respectively 88, 81, and 80 years.

402. ANSTRUTHER-EASTER.—Of the twenty-five deaths registered during the year, twelve were of persons whose average age amounted to 82 years.

417. CRAIL.—Of the four deaths registered, three resulted from Diphtheria. A death from the same disease also occurred in August.

420. CUPAR.—Of the twenty-six deaths, seven occurred in the Fife and Kinross Asylum.

437. KILMANY.—A child visiting in the parish was found on the night of its arrival to have Scarlet Fever, but, being carefully isolated, no other case occurred.

458b. TULLIALLAN.—Of the eleven deaths recorded, two were of persons aged respectively 84 and 94 years. Hooping-cough prevailed amongst children, and caused three of the deaths.

## 15. KINROSS.

460. CLEISH.—Of the four deaths, one was caused by Burning, a twin died immediately after birth, and a woman aged 76 years died while on a visit to the parish.

## 16. CLACKMANNAN.

467. DOLLAR.—Of the eight deaths, five were of persons aged respectively 68, 68, 74, 81, and 88 years.

## V. WEST-MIDLAND DIVISION.

## 17. STIRLING.

479. FALKIRK.—During December fifteen fatal cases of Measles accompanied or succeeded by Pneumonia occurred.

## 19. ARGYLL.

*Mainland.*

505 (4). WESTERN ARDNAMURCHAN. — The only death registered was caused by Diphtheria. Only one family affected.

510 (2). KILMUN.—Of the six deaths recorded, three were caused by Scarlet Fever.

515. KILBRANDON AND KILCHATTAN.—Typhoid Fever prevalent.

526. LOCHGILFHEAD.—Marriages above the average, the probable cause being the exceptionally good fishing this season in Lochfyne.

## 20. BUTE.

553 (2). KILBRIDE.—Four of the six deaths recorded were of persons bordering on 80 years of age.

557. NORTH BUTE.—An epidemic of Scarlet Fever occurred during December. The Public School in the village of Port Bannatyne has been closed, and all children affected removed to the Robertson-Stewart Hospital, Rothesay. The Fever is of a mild type.

## VI. SOUTH-WESTERN DIVISION.

## 22. Ayr.

578 (1). Ayr.—Of the 137 deaths recorded, four were of persons over 90 years of age. Five deaths resulted from Violent Causes.

594. GIRVAN.—Of the twenty-seven deaths, twelve were of persons over 70 years of age.

610b. PATNA.—Scarlet Fever of a mild type prevalent, and in consequence the school was closed for five weeks. None of the cases fatal.

## 23. LANARK.

647. HAMILTON.—During the month of December an epidemic of Measles occurred, and nearly half of the deaths in that month are thus accounted for.

## VII. SOUTH-EASTERN DIVISION.

## 24. LINLITHGOW.

663 (1). BORROWSTOUNNESS.—Measles and Scarlatina prevalent, and in consequence there is a considerable mortality among young children.

667. KIRKLISTON.—Two deaths from Enteric Fever occurred in Drumshoreland Hospital. Several cases of Diphtheria occurred, but none fatal.

## 25. EDINBURGH.

691. LASSWADE.—Owing to the removal of the inhabitants of Pentland Cottages, Loanhead, consequent on the stoppage of the Oil Works, the births and marriages are below the average. Of the thirty-seven deaths during the quarter, ten were of persons whose ages ranged from 71 to 86 years, the average for each being over 77 years. The deaths of fourteen persons whose ages ranged from 80 to 96 years occurred during the year.

693. LIBERTON.—One of the deaths was that of a woman aged 94, who had been a widow for fifty years.

701. WEST CALDER.—Deaths for December above the average, the cause being colds resulting in Pneumonia, Bronchitis, and Hooping-Cough. Seven cases of Typhus Fever were removed to the hospital, but all made satisfactory recovery.

## 26. HADDINGTON.

714. OLDHAMSTOCKS.—The three deaths recorded all resulted from Scarlet Fever.

724. WHITTINGHAME.—The two deaths were of twins, 16 and 18 days old.

## 27. BERWICK.

732 (1). COLDINGHAME.—No infectious diseases during the year, the deaths being principally of very old people.

743. GREENLAW.—Births, Deaths, and Marriages all below the average. The population is steadily decreasing, as farmers every year are laying down fields in grass, thus lessening their labour bill, and diminishing the number of ploughmen. During the last twenty years, the population has decreased nearly one-fifth, and at the present time the ratio of decrease is probably much greater.

746. LADYKIRK.—During the year only one death was recorded, and four marriages, and eight proclamations of marriage.

747. LANGTON. -- The two deaths recorded during the quarter, are all that have occurred during the year.

748. LAUDER. -- The number of deaths is the smallest, and the number of marriages the largest recorded for any year since the introduction of the Registration Act.

28. PEEBLES.

760. EDDLESTONE. -- Hooping-Cough prevalent, and one case fatal.

762 (1). INNERLEITHEN. -- Scarlet Fever still lingers in the district.

772. TWEEDSMUIR. -- One of the deaths was that of a woman about 87 years of age. The great influx of navvies has caused an increase of both births and deaths.

VIII. SOUTHERN DIVISION.

30. ROXBURGH.

799 (2). LANESHAU. -- Of the two deaths recorded, one was that of a female who had almost reached her 88th year.

807. SPROUSTON. -- Owing to the continuance of Measles, the school in Lempitlaw district has been closed.

31. DUMFRIES.

830. HOLYWOOD. -- Only one death registered during the quarter, -- that of a male aged 85 years.

839. LANGHOLM. -- Of the six persons whose deaths were recorded, the ages ranged from 69 to 84 years.

854. WESTERKIRK. -- Of the three persons whose deaths were registered, the average age was nearly 85 years.

32. KIRKCUDBRIGHT.

862. CORSOCKBRIDGE. -- No deaths during the quarter. One case of Scarlet Fever occurred. The schools were shut for some weeks in consequence of a great increase of sickness among children.

33. WIGTOWN.

897. SORBIE. -- Of the nine deaths for the quarter, the primary cause of five was Measles. This epidemic was very prevalent about the middle of the quarter, and the public schools were closed for a fortnight in consequence. Marriages for the year are considerably above the average, the number never, since the passing of the Registration Act, having been exceeded, and only three times reached, in 1875, 1876, and 1885, when the population was larger than at present.

# INDEX TO THE DISTRICTS

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.\**

Abbey, . . . 559	Ardnamurchan, 505	Barvas, . . . 86	Brydekirk, . . . 813	Ceres, . . . 415

Archie, . . . 251		Bridge of Weir, . . . 559	Cathcart, . . . 560	Crichton, . . . 681
Archie, . . . 251		Bridgeton, . . . 644	Cavers, . . . 785	Crieche (Suth.), 46
Archie, . . . 251		Brodick, . . . 553	Cawdor, . . . 122	
Archie, . . . 251		Broughton, . . . 758		

\* The actual number of Districts is 1064—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 6 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.
